

LETTER TO THE EDITOR

Stamp Duty Charge

During last week I announced a stamp duty charge that will have a positive effect on the already booming real estate industry in the Northern Territory.

The Government has decided the payment of stamp duty for properties purchased "off the plan" can be deferred.

This decision is seen as provided some relief to buyers who in the past have been required to not only pay the deposit but also the stamp duty at the time they enter the contract.

At the moment, we are working through certain safeguards which need to be put in place. These safeguards could include holding the document in the tax office or nominal stamping on the execution of the contract with the full payment of stamp duty deferred until the transfer of the title.

The safeguards will be in place expeditiously.

Should you have any queries please do not hesitate to contact my office or the Commissioner of Taxes, Dave Read, on 897918.

Barry Coulter
Treasurer

Northern Territory Government

Commonwealth Secretariat

Having, just taken up my duties as Director, I wish to be sure that you are informed of the fact, and of our intention as a Division to continue and, if possible to extend, the close contact and services given during my predecessor, Jeremy Pope's tenure of office.

Both the Commonwealth Heads of Government Meeting in Cyprus and the Mauritius Law Ministers Meeting underlined the growing expectations of the Commonwealth association, including the Secretariat. In particu-

lar, building on the 1991 Harare Declaration, members look forward to the realisation of the "essential ingredients of the Commonwealth fundamental political values". Many of these ingredients" have a strong legal flavour, and we as a Division, are very conscious of our obligation to meet those expectations.

In order to do so, we will continue to need the best information on the thoughts, insights and needs of our Commonwealth colleagues: Ministers. Law officers, judicial officers, private practitioners and legal educators. To that end, we look forward to learning, from you, what we can do, and do better, for you.

We are, as you are aware a small band, with finite resources, but I wish to reassure you that our objective remains to achieve the maximum result possible.

I look forward to meeting you personally, either for the first time or once again, and in the meanwhile to hearing from you.

(Any comments on above may be sent to the Director, Commonwealth Law Bulletin, Marlborough House, Pall Mall, London, SW1Y 5HX UK)
