

Major research project tackles job satisfaction

The Victorian Law Foundation has completed the first stage of a three part project — Facing the Future; Gender, Employment and Best Practice Issues for Law Firms.

This stage examines the issues of job satisfaction and dissatisfaction among solicitors.

According to the foundation, the results make compelling reading and go to the very heart of human resource management in the legal profession.

The foundation believes the project will have an important impact on the development of legal practices in the future.
