

The new Commom Room

The Bar Association refurbished its premises during the summer of 2010–2011.

The new layout features increased seating capacity and better storage facilities for tables and chairs. There are two breakout rooms and three conference rooms, providing more functional space and better facilities for the Bar Practice Course.

The kitchen facilities have been upgraded, allowing for improved catering.

The Common Room now features high definition video cameras, which will eventually allow for video streaming of CPD events.
