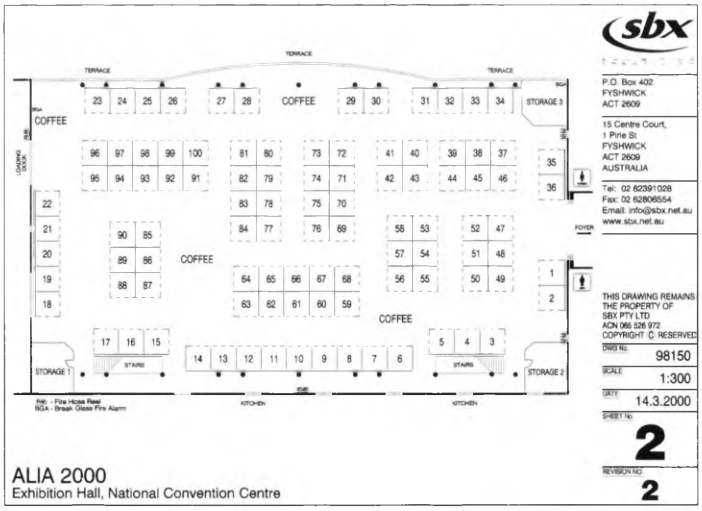
The exhibitors...

The ALIA2000 conference committee welcomes the following exhibitors to the conference and encourages all delegates to take the time to visit the exhibition...



3M Australia 3, 4 & 5

3M has been installing state-of-the-art Library Systems for thirty years and over four billion books are now protected by 3M 'Tattle-Tape' Strips. 3M's new Digital Identification Systems will enable libraries to improve inventory control, locate misplaced items and process resources faster. Visit http://www.3M.com.au/library.

ALIA 67 and 68

Come and meet the staff from ALIA National Office who will be able to answer all your questions about the Association. The ALIA Board of Directors will also be on hand to talk about the new Association. The new edition of the *Australian Dictionary of Acronyms and Abbreviations* will be launched during the conference.

ALIA 2002 58

Next to the State Library of New South Wales' stand you'll find the ALIA 2002 Conference stand, where the conference convenors will be urging you to 'Scoot in to Sydney' in 2002. The focus for ALIA 2002 is 'Powering the enterprise — the information agenda'.

All States Bookbinding 57

All States Bookbinding is a Certified International member of the Library Binding Institute. The company services libraries nationwide and is able to provide the highest quality products to all libraries regardless of location. Our highly experienced binders are able to assist your library with preserving your existing paper format collection.

Approved Systems 11

Australian Bureau of Statistics 26

The ABS Stand features training materials developed by the Library Extension Program. It also emphasises next year's Census on 7 August, and how libraries can benefit by hosting Census displays and launches. Pick up an ABS Information Kit for your library and tour the ABS website!

Baker & Taylor 81

Baker & Taylor is a leading supplier of United States books to libraries worldwide. Our web-database contains more than 2.5 million titles and includes price and inventory (demonstrations will be provided at the stand). Material is located in our warehouse in Illinois which contains in excess of 300 000 unique titles and several million items.

Bell & Howell Information & Learning 35 & 36

Bell & Howell Information and Learning is a premier provider of online information and reference services, newspapers, periodicals, literature, dissertations, and archival information to institutions and individuals worldwide. The three brands ProQuest, UMI and Chadwyck-Healey offer complete coverage of subjects ranging from medicine to the humanities. Visit us for a demonstration.

Bermel Business Systems 71

Australia's leading company marketing cashless payment solutions: from disposable cards to rechargeable magnetic stripe and chip cards with full ID capabilities. The one card can be used with a range of equipment. Bermel will launch their new card readers using the Ecard technology as well as a note and coin accepting revaluator for the open chip card.

Blackwell's Book Services 9

Blackwell's Book Services offer high quality products and service, combined with leading edge technology. Our services include online and e-mail new titles information, a web-based collection management and acquisitions service (Collection Manager), EDI interfaces, full book processing and MARC services. In partnership with netLibrary, BBS also offer an eBooks service to supplement and enhance a library's physical collection.

CARL Corporation 10

CARL Corporation provides integrated library automation and management systems. Products include: CARLweb — multilingual WebPAC; Kid's Catalog Web — OPAC interface for children; Graphical staff modules — circulation, acquisitions, serials, cataloguing and reports; Dialog@CARL — web access to databases; Everybody's Menu Builder — graphical menuing system; and Photo-imaging module.

CAVAL Limited 32

CAVAL Collaborative Solutions will launch its new website at 1:00pm on Wednesday. Come and join the CAVAL staff to celebrate with a glass of champagne. The CAVAL stand features a full range of CAVAL services and products along with information and demonstrations of Fretwell-Downing Informatics' LIDDAS ILL Management System.

Charles Sturt University 83

The information.studies@csu.edu.au stand is a partnership involving the School of Information Studies, the Centre for Information Studies, and the Centre for Studies in Teacher Librarianship at Charles Sturt University. There will daily lucky draws including prizes of CSU wines and/or cheeses and CIS books. Delegates are invited to a wine & cheese 'get together' on Tuesday from 3:30pm

Colour Presentation 12

Colour Presentations is pleased to announce the launch of a new automatic book covering system direct from Italy. The system consists of a simple desk-top machine and special covers which protects and prolongs the life of the book. Please join us at our workshop on 26 October at 1:30pm to learn more about this system.

Country Public Library Association 91

Come to Stand 91 and meet members of the Country Public Libraries Association who will describe the many projects undertaken by this dynamic organisation. Enter the draw for free registration to the Association's 2001 annual conference to be held in Orange from 4 to 6 July — an exciting program is promised.

Cypher Limited 1

Cypher, the United Kingdom's best, most friendly library bookseller by far, offers a complete service tailored to your libraries unique requirements. Books on Tape, an exciting new range of 3000 spoken word titles, will be launched during the conference. Visit the Cypher stand and enter the draw to win a set for your library.

DA Information Services 37, 38, 45 & 46

Datacom Systems Pty Ltd 28

Datacom is a leading provider of solutions for IT services to industry and libraries across Australia. We are the new organisation supporting the tried and tested library software from DRA. Datacom is displaying Taos. This new system has been developed using the latest tools and technologies including an Object Orientation Database, and the familiar windows-based GUI.

Dunn & Wilson Australia Pty Ltd 66

Will be featuring from both their binderies Cullen's in Sydney and Apollo Moon's in Melbourne, all the various styles of library bindings. Our new library binding software will also be on view, and is available to all current and new customers.

Eastend Booksellers Pty Ltd 72

EBSCO Australia 69 & 70

Curious about e-journals? Want to see the latest in linking e-journals to databases? Visit the EBSCO stand for demonstrations of innovative solutions for subscription delivery. EIS has more people on the ground in Australia than any other agent, which means better, more nourishing service — plus free food tastings and water to go. Watch *EBSCO Express* for details.

Economist Intelligence Unit 78

The Economist Intelligence Unit is the world's leading provider of global business intelligence, including business developments, economic and political trends, and government regulations worldwide. EIU's full database of country, regional and industry information is available online. View the full suite of online services including: eiu.com, EIU ViewsWire, EIUCountryData and ebusinessforum.com. Ask about a free trial.

e-knowledge@ALDIS, International 47

Visit e-knowledge@ALDIS, International — a division of Geac Computers Pty Ltd to discover the latest on: *Australian Public Affairs Full Text;* SilverLinker — SilverPlatter's new full text linking solution; CSA — a leading provider of online information; The Dialog Corporation; SMIT — a ALDIS/CAVAL Collaborative Solutions venture; DW Thorpe; and Glassbook — demonstration of e-book technology.

EOS International 64

EOS International is demonstrating Graphical Library Automation Series (GLAS) Version 3.1, which features managing URI (URL/URN) hyperlinks within bibliographic records for display in OPAC. New Q Series Version 3.0 supports the Z39.50 searching protocol, including support of Bath Profile level 1 functionality for search and display of MARC 21 records.

epixtech 15, 16 & 17 sole principal sponsor

epixtech introduces a new paradigm for library service delivery. *i*Library, featuring an innovative portal, gives patrons access to a range of cross-enterprise and self-service options. The first application service provider (ASP) model for libraries, *i*Library provides a real opportunity for outsourcing system administration. Come and experience this web service and the first 'smart library' solution incorporating Gemplus's advanced RFID technology.

Ex Libris (Aust) Pty Ltd 13

Ex Libris is known for its ALEPH 500 ILMS, a market leader in academic and research libraries. Ex Libris has broadened its product range with the development of the Metalib information portal software and the SFX dynamic reference linking software which is being used to solve the 'appropriate copy' problem with the DOI and the CrossRef publishers.

Forward Learning 92

Forward Learning, Australia's World Book Distributor, will be offering special pre-publication packages with the new 2001 Edition of the *World Book Encyclopedia* in print, on-line and CD-ROM formats. Our new series *Animals of the World* will be on display, as will the 2000 edition of *Childcraft* in International English.

Friends of Libraries Australia 49

Geac Computers 48

Geac Library Solutions announces the release of Geac APOLLO, a three-tiered graphical client/server solution which will facilitate an environment of fast response, rich functionality, total integration of the latest technology all on your preferred platform. There could be no better time to consider Geac — a company that is poised and prepared to lead its users confidently well into the 21st century.

Haworth Australia 14

Health Communication Network 95

Health Communication Network (HCN) is a world leader in the provision of health and clinical decision support information via the internet.

HCN hosts a growing collection of quality online health information, including the Cochrane Library of evidence-based medicine, MIMS Online, Micromedex Online Healthcare Series, Australian Medicines Handbook, Medline and other citation databases plus full-text journals, utilising Ovid Technologies.
