- (b) sold by the producer for delivery in Australia or used by the producer in the production in Australia of fertilizers.
- To whom bounty payable.** 7. Bounty is payable to the producer of the sulphuric acid.
- Rate of bounty.** 8.—(1.) The rate of the bounty in respect of any sulphuric acid is the rate applicable to that sulphuric acid fixed by, or ascertained in accordance with, regulations made from time to time under this Act, after inquiry and report by the Tariff Board.
- (2.) The regulations may provide for different rates of bounty in respect of sulphuric acid produced from different materials or of different strengths or that, in such circumstances as are prescribed, no bounty is payable.
- (3.) For the purpose of the making of the first regulations to be made for the purposes of this section, the inquiry made by the Tariff Board in relation to sulphur and sulphuric acid resulting in the report of the Board made on the fourth day of August, One thousand nine hundred and fifty-four, and that report, shall be deemed to be an inquiry and report for the purposes of this section.

9.—(1.) The amount available for payment of bounty in respect of sulphuric acid produced in each year to which this Act applies is Six hundred thousand pounds. Limit of annual bounty.

(2.) Where the amount available for the payment of bounty in respect of sulphuric acid produced in a year to which this Act applies is insufficient for the payment in full of all valid claims, the bounty otherwise payable in respect of each of those claims shall be reduced to an amount which bears the same proportion to the amount of the claim as the amount so available bears to the total amount of all such claims.

(3.) If the Minister is of the opinion that the amount available for the payment of bounty in respect of sulphuric acid produced in a year to which this Act applies will be insufficient for the payment in full of all valid claims, he may withhold payment of the whole or any part of the bounty otherwise payable upon any such claim until he has ascertained the total amount of all such claims.

10.—(1.) Where the net profit of a producer from the production and sale of sulphuric acid produced from materials of Australian origin, derived during a year to which this Act applies, after taking into account bounty paid or payable (whether in that year or subsequently) in respect of sulphuric acid produced in that year, exceeds or would exceed one-eighth of the capital used by the producer in that production and sale, the Minister shall— Reduction of bounty where profits exceed 12½ per centum per annum.

(b) withhold from the producer payment of any amount of bounty where, if the payment were made, the net profit, after taking bounty paid into account, would exceed one-eighth of that capital.

(2.) For the purposes of the application of the last preceding sub-section in relation to a year to which this Act applies other than the first such year, where the Minister is satisfied that the profit derived by the producer in an earlier year to which this Act applies from the production and sale of sulphuric acid produced from materials of Australian origin, after taking into account bounty paid or payable (whether in that earlier year or subsequently) in respect of sulphuric acid produced in that earlier year, was less than one-eighth of the capital used in that production and sale, or that no such profit was derived, he may make such allowance by reason of that fact as he, in his absolute discretion, thinks fit.

(3.) For the purposes of this section, the Minister may—

- (a) determine the amount of any capital or net profit required to be taken into account for those purposes ;
- (b) in making a determination under the last preceding paragraph, treat as capital and net profit of a producer of sulphuric acid the amount, as determined by him, of any capital used, and net profit derived, by another person (whether or not subsidiary to, or affiliated with, the producer) in or from the distribution or sale of the sulphuric acid ; and
- (c) where a producer of sulphuric acid uses any of the sulphuric acid for the production of fertilizers or other commodities, treat the sulphuric acid so used as having been sold by the producer, at such prices as the Minister determines.

(4.) In making a determination under the last preceding sub-section of an amount of net profit, the Minister shall not regard any tax upon income as a deduction and may disallow any interest paid by the producer as a deduction.

(5.) Where a producer fails to refund an amount as required under sub-section (1.) of this section, that amount may be recovered as a debt due to the Commonwealth by action in a court of competent jurisdiction.
