  - 2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
  - Schedule 3 sets out complying development (for which a complying 3 development certificate may be issued as an alternative to obtaining development consent).
  - Clause 2.6 requires consent for subdivision of land. 4
  - Part 5 contains other provisions which require consent for particular 5 development.

#### 2.4 **Unzoned land**

- (1)Development may be carried out on unzoned land only with development consent.
- (2)Before granting development consent, the consent authority:
  - must consider whether the development will impact on adjoining (a) zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
  - must be satisfied that the development is appropriate and is (b) compatible with permissible land uses in any such adjoining land.

#### 2.5 Additional permitted uses for particular land

- Development on particular land that is described or referred to in (1)Schedule 1 may be carried out:
  - (a) with development consent, or

Clause 2.6 North Sydney Local Environmental Plan 2013

Part 2 Permitted or prohibited development

(b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.

(2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

#### 2.6 Subdivision—consent requirements

(1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes.

- 1 If a subdivision is specified as **exempt development** in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, the Act enables it to be carried out without development consent.
- 2 Part 6 of *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008* provides that the strata subdivision of a building in certain circumstances is **complying development**.
- (2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

**Note.** The definition of *secondary dwelling* in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.

#### 2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

**Note.** If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or *State Environmental Planning Policy (Exempt and Complying Development Codes) 2008*, as exempt development, the Act enables it to be carried out without development consent.

#### 2.8 Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 52 days (whether or not consecutive days) in any period of 12 months.

| North Sydney Local Environmental Plan 2013 | Clause 2.8 |
|--|------------|
| Land Use Table                             | Part 2     |

- (3) Development consent must not be granted unless the consent authority is satisfied that:
  - (a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and

- (b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
- (c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
- (d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.
- (4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.
- (5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).

### Part 3 Exempt and complying development

#### 3.1 Exempt development

**Note.** Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
- (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
- (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).
- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
- (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
- (3) To be exempt development, the development:
  - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia* or, if there are no such relevant provisions, must be structurally adequate, and

  - (c) must not be designated development, and
  - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:

(b) not involve the removal or pruning of a tree or other vegetation that requires a permit or development consent for removal or pruning, unless that removal or pruning is undertaken in accordance with a permit or development consent.

**Note.** A permit for the removal or pruning of a tree or other vegetation may be granted under this Plan. A development consent for the removal of native vegetation may be granted where relevant under the *Native Vegetation Act 2003*.

(6) A heading to an item in Schedule 2 is part of that Schedule.

#### 3.2 Complying development

**Note.** Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

The section states that development cannot be complying development if:

- (e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment, Climate Change and Water in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the *Threatened Species Conservation Act 1995*)), or
- (f) the development is on land identified as an environmentally sensitive area.
- (1) The objective of this clause is to identify development as complying development.
- (2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:
  - (a) the development standards specified in relation to that development, and

### Part 4 Principal development standards

#### 4.1 Minimum subdivision lot size

- (1) The objectives of this clause are as follows:
  - (a) to ensure that subdivision and associated development promotes the desired future character of the neighbourhood through consistent lot size, shape, orientation and housing density,
  - (b) to maintain a mix of dwelling sizes and affordable accommodation,
  - (c) to prevent fragmentation of land, which would prevent the achievement of the extent of development and nature of uses envisioned for particular locations,
  - (d) to minimise any likely impact of subdivision and development on the amenity of neighbouring properties,
  - (e) to ensure that lot sizes allow buildings to be sited to protect natural or cultural features, including heritage items, and retain special features, such as trees and views.
- (2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.
- (3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.
- (4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.
- (4A) For the purpose of calculating the size of a lot, the area of any access handle, access way or right of carriageway is excluded.

#### 4.2 Rural subdivision

[Not applicable]

#### 4.3 Height of buildings

- (1) The objectives of this clause are as follows:
  - (a) to promote development that conforms to and reflects natural landforms, by stepping development on sloping land to follow the natural gradient,
  - (b) to promote the retention and, if appropriate, sharing of existing views,

Clause 4.4 North Sydney Local Environmental Plan 2013

Part 4 Principal development standards

- (c) to maintain solar access to existing dwellings, public reserves and streets, and to promote solar access for future development,

Part 4 Principal development standards

- (5) Development consent must not be granted to the erection of a building on land identified as Area 1–13 on the Non-Residential Floor Space Ratio Range Map unless the consent authority is satisfied that the building will have an active street frontage after its erection.
- (6) Despite subclause (5), an active street frontage is not required for any part of a building that is used for any of the following:
  - (a) entrances and lobbies (including as part of a mixed use development),
  - (b) access for fire services,
  - (c) vehicular access.
- (7) In this clause, a building has an *active street frontage* if no part of the ground floor of the building facing a street is used for residential accommodation.
- (8) In this clause, *non-residential floor space ratio* means the ratio of the gross floor area of that part of a building used or proposed to be used for any purpose other than residential accommodation, a car park or a telecommunications facility, in all buildings within a site to the site area.

#### 4.5 Calculation of floor space ratio and site area

#### (1) **Objectives**

The objectives of this clause are as follows:

- (a) to define *floor space ratio*,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
  - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
  - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
  - (iii) require community land and public places to be dealt with separately.

#### (2) Definition of "floor space ratio"

The *floor space ratio* of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

|--|-------------|
| North Sydney Local Environmental Plan 2013 | Clause 4.5  |
| Principal development standards            | Part 4      |

#### (3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the *site area* is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

#### (4) Exclusions from site area

- The following land must be excluded from the site area:
- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

#### (5) Strata subdivisions

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

#### (6) Only significant development to be included

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

#### (7) Certain public land to be separately considered

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

#### (8) Existing buildings

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the

Clause 4.6 North Sydney Local Environmental Plan 2013

Part 4 Principal development standards

purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

#### (9) Covenants to prevent "double dipping"

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.

#### (10) Covenants affect consolidated sites

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (*affected land*), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,

the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

#### (11) **Definition**

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

#### 4.6 Exceptions to development standards

- (1) The objectives of this clause are as follows:
  - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
  - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has

considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:

- (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
- (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Development consent must not be granted for development that contravenes a development standard unless:
  - (a) the consent authority is satisfied that:
    - (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
    - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
  - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
  - (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
  - (b) the public benefit of maintaining the development standard, and
  - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:
  - (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
  - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note. When this Plan was made it did not include all of these zones.

Clause 4.6 North Sydney Local Environmental Plan 2013

Part 4 Principal development standards

- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow development consent to be granted for development that would contravene any of the following:
  - (a) a development standard for complying development,
  - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
  - (c) clause 5.4,
  - (ca) clause 4.3 (2C),

### Part 5 Miscellaneous provisions

#### 5.1 Relevant acquisition authority

(1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the Land Acquisition (Just Terms Compensation) Act 1991 (the owner-initiated acquisition provisions).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

#### 5.2 Classification and reclassification of public land

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as "operational land" or "community land" in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*. Note. Under the *Local Government Act 1993*, "public land" is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.
- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.
- (3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the *Local Government Act 1993*.

- (4) The public land described in Part 1 of Schedule 4:
  - (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and

- (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
  - (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
  - (b) any reservations that except land out of the Crown grant relating to the land, and
  - (c) reservations of minerals (within the meaning of the *Crown Lands Act 1989*).

**Note.** In accordance with section 30 (2) of the *Local Government Act 1993*, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

## 5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 25 metres.
- (3) This clause does not apply to:
  - (a) land in Zone RE1 Public Recreation, Zone E1 National Parks and Nature Reserves, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone W1 Natural Waterways, or
  - (a1) land in Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone B1 Neighbourhood Centre, Zone B3 Commercial Core, Zone B4 Mixed Use, Zone IN2 Light Industrial, Zone IN4 Working Waterfront, Zone RE2 Private Recreation or Zone E4 Environmental Living, or

Clause 5.4 North Sydney Local Environmental Plan 2013

Part 5 Miscellaneous provisions

- (b) land within the coastal zone, or
- (c) land proposed to be developed for the purpose of sex services or restricted premises.

Note. When this Plan was made it did not include all of these zones.

- (4) Despite the provisions of this Plan relating to the purposes for which development may be carried out, development consent may be granted to development of land to which this clause applies for any purpose that may be carried out in the adjoining zone, but only if the consent authority is satisfied that:
  - (a) the development is not inconsistent with the objectives for development in both zones, and
  - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) This clause does not prescribe a development standard that may be varied under this Plan.

#### 5.4 Controls relating to miscellaneous permissible uses

#### (1) Bed and breakfast accommodation

If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

- (c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or
- (d) the development is exempt development.

#### (4) Effect of proposed development on heritage significance

The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

#### (5) Heritage assessment

The consent authority may, before granting consent to any development:

- (a) on land on which a heritage item is located, or
- (b) on land that is within a heritage conservation area, or
- (c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

#### (6) Heritage conservation management plans

The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

#### (7) Archaeological sites

#### 6.1 Objectives of Division

The objectives of this Division are as follows:

- (a) to maintain the status of the North Sydney Centre as a major commercial centre,
- (b) to require arrangements for railway infrastructure to be in place before any additional non-residential gross floor area is permissible in relation to any proposed development in the North Sydney Centre,
- (c) to permit an additional 250,000 square metres of non-residential gross floor area in addition to the estimated existing (as at 28 February 2003) 700,000 square metres of non-residential gross floor area,
- (d) to ensure that transport infrastructure, and in particular North Sydney station, will enable and encourage a greater percentage of people to access the North Sydney Centre by public transport than by private transport and:
  - (i) be convenient and accessible, and
  - (ii) ensure that additional car parking is not required in the North Sydney Centre, and
  - (iii) have the capacity to service the demands generated by development in the North Sydney Centre,
- (e) to encourage the provision of high-grade commercial space with a floor plate, where appropriate, of at least 1,000 square metres,
- (f) to protect the privacy of residents, and the amenity of residential and open space areas, within and around the North Sydney Centre,
- (g) to prevent any net increase in overshadowing of any land in Zone RE1 Public Recreation (other than Mount Street Plaza) or any land identified as "Special Area" on the North Sydney Centre Map,
- (h) to prevent any increase in overshadowing that would adversely impact on any land within a residential zone,
- (i) to maintain areas of open space on private land and promote the preservation of existing setbacks and landscaped areas, and to protect the amenity of those areas.

#### 6.2 Land to which this Division applies

- (1) This Division applies to the North Sydney Centre.
- (2) A provision in this Division prevails over any other provision of this Plan to the extent of any inconsistency.

#### 6.3 Building heights and massing

- (1) The objectives of this clause are as follows:
  - (a) to achieve a transition of building heights generally from 100 Miller Street and 79–81 Berry Street to the boundaries of the North Sydney Centre,
  - (b) to promote a height and massing that has no adverse impact on land in Zone RE1 Public Recreation or land identified as "Special Area" on the North Sydney Centre Map or on the land known as the Don Bank Museum at 6 Napier Street, North Sydney,
  - (c) to minimise overshadowing of, and loss of solar access to, land in Zone R2 Low Density Residential, Zone R3 Medium Density Residential, Zone R4 High Density Residential, Zone RE1 Public Recreation or land identified as "Special Area" on the North Sydney Centre Map,
  - (d) to promote scale and massing that provides for pedestrian comfort in relation to protection from the weather, solar access, human scale and visual dominance,
  - (e) to encourage the consolidation of sites for the provision of high grade commercial space.
- (2) Development consent must not be granted for the erection of a building on land to which this Division applies if:
  - (a) the development would result in a net increase in overshadowing between 12 pm and 2 pm on land to which this Division applies that is within Zone RE1 Public Recreation or that is identified as "Special Area" on the North Sydney Centre Map, or
  - (b) the development would result in a net increase in overshadowing between 10 am and 2 pm of the Don Bank Museum, or
  - (c) the site area of the development is less than 1,000 square metres.
- (3) Development consent for development on land to which this Division applies may be granted for development that would exceed the maximum height of buildings shown for the land on the Height of Buildings Map if the consent authority is satisfied that any increase in overshadowing between 9 am and 3 pm is not likely to reduce the amenity of any dwelling located on land to which this Division does not apply.

Clause 6.4 North Sydney Local Environmental Plan 2013

Part 6 Additional local provisions

#### (4) Mount Street Plaza

Development consent may be granted to development on land at 105–153 Miller Street, North Sydney, known as the MLC Building, that would result in a net increase in overshadowing of the land known as Mount Street Plaza that is within Zone RE1 Public Recreation.

- (5) In determining whether to grant development consent for development on land to which this Division applies, the consent authority must consider the following:
  - (a) the likely impact of the proposed development on the scale, form and massing of the locality, the natural environment and neighbouring development and, in particular, the lower scale development adjoining North Sydney Centre,
  - (b) whether the proposed development preserves significant view lines and vistas,
  - (c) whether the proposed development enhances the streetscape in relation to scale, materials and external treatments.

#### 6.4 Miller Street setback

- (1) The objective of this clause is to maintain the established setback and landscaped setting on the eastern side of Miller Street between McLaren Street and Mount Street.
- (2) Development consent must not be granted for the erection of a building on land identified as "Miller Street Setback" on the North Sydney Centre Map unless:

- (1) The objective of this clause is to require satisfactory arrangements to be made for the provision of railway infrastructure to satisfy needs that arise from development in North Sydney Centre.
- (2) Development consent must not be granted for development on land to which this Division applies if the total non-residential gross floor area of buildings on the land after the development is carried out would exceed the total non-residential gross floor area of buildings lawfully existing on the land immediately before the development is carried out, unless:
  - (a) the Director-General has certified, in writing to the consent authority, that satisfactory arrangements have been made for

The review is to be undertaken as soon as practicable after development consent has been granted that would result in the sum of increases (reduced by any decreases) in the non-residential gross floor area authorised under all consents granted in relation to land in the North Sydney Centre since 28 February 2003 exceeding 200,000 square metres.
- (5) For the purposes of this clause:
