Pittwater Local Environmental Plan 2014

under the

Environmental Planning and Assessment Act 1979

Part 1 Preliminary

1.1 Name of Plan

This Plan is Pittwater Local Environmental Plan 2014.

1.1AA Commencement

This Plan commences 28 days after it is published on the NSW legislation website.

1.2 Aims of Plan

(1) This Plan aims to make local environmental planning provisions for land in Pittwater in accordance with the relevant standard environmental planning instrument under section 33A of the Act.

(2) The particular aims of this Plan are as follows:

(a) to promote development in Pittwater that is economically, environmentally and socially sustainable,

(b) to ensure development is consistent with the desired character of Pittwater’s localities,

(c) to support a range of mixed-use centres that adequately provide for the needs of the Pittwater community,

(d) to retain and enhance land used for employment purposes that is needed to meet the economic and employment needs of the community both now and in the future,

(e) to improve access throughout Pittwater, facilitate the use of public transport and encourage walking and cycling,

(f) to encourage a range of housing in appropriate locations that provides for the needs of the community both now and in the future,

(g) to protect and enhance Pittwater’s natural environment and recreation areas,

(h) to conserve Pittwater’s European and Aboriginal heritage,
(i) to minimise risks to the community in areas subject to environmental hazards including climate change,

(j) to protect and promote the health and well-being of current and future residents of Pittwater.

1.3 Land to which Plan applies

This Plan applies to the land identified on the Land Application Map.

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

(1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:

(a) approved by the Minister when the map is adopted, and

(b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.

(2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.

(3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.

(4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled Standard technical requirements for LEP maps and Standard requirements for LEP GIS data which are available on the website of the Department of Planning and Infrastructure.
1.8 Repeal of planning instruments applying to land

(1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.

Note. The following local environmental plans are repealed under this provision:

- Pittwater Local Environment Plan 1993

(2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.

1.8A Savings provision relating to development applications

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had not commenced.

Note. However, under Division 4B of Part 3 of the Act, a development application may be made for consent to carry out development that may only be carried out if the environmental planning instrument applying to the relevant development is appropriately amended or if a new instrument, including an appropriate principal environmental planning instrument, is made, and the consent authority may consider the application. The Division requires public notice of the development application and the draft environmental planning instrument allowing the development at the same time, or as closely together as is practicable.

1.9 Application of SEPPs

(1) This Plan is subject to the provisions of any State environmental planning policy that prevails over this Plan as provided by section 36 of the Act.

(2) The following State environmental planning policies (or provisions) do not apply to the land to which this Plan applies:

- State Environmental Planning Policy No 1—Development Standards
- State Environmental Planning Policy No 4—Development Without Consent and Miscellaneous Exempt and Complying Development (clause 6 and Parts 3 and 4)
- State Environmental Planning Policy No 60—Exempt and Complying Development

1.9A Suspension of covenants, agreements and instruments

(1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a consent granted under the Act, any agreement, covenant or other similar instrument that
restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.

(2) This clause does not apply:

(a) to a covenant imposed by the Council or that the Council requires to be imposed, or

(b) to any prescribed instrument within the meaning of section 183A of the Crown Lands Act 1989, or

(c) to any conservation agreement within the meaning of the National Parks and Wildlife Act 1974, or

(d) to any Trust agreement within the meaning of the Nature Conservation Trust Act 2001, or

(e) to any property vegetation plan within the meaning of the Native Vegetation Act 2003, or

(f) to any biobanking agreement within the meaning of Part 7A of the Threatened Species Conservation Act 1995, or

(g) to any planning agreement within the meaning of Division 6 of Part 4 of the Act.

(3) This clause does not affect the rights or interests of any public authority under any registered instrument.

(4) Under section 28 of the Act, the Governor, before the making of this clause, approved of subclauses (1)–(3).
Part 2 Permitted or prohibited development

2.1 Land use zones

The land use zones under this Plan are as follows:

Rural Zones
RU2 Rural Landscape

Residential Zones
R2 Low Density Residential
R3 Medium Density Residential
R5 Large Lot Residential

Business Zones
B1 Neighbourhood Centre
B2 Local Centre
B4 Mixed Use
B6 Enterprise Corridor
B7 Business Park

Industrial Zones
IN2 Light Industrial
IN4 Working Waterfront

Special Purpose Zones
SP1 Special Activities
SP2 Infrastructure
SP3 Tourist

Recreation Zones
RE1 Public Recreation
RE2 Private Recreation

Environment Protection Zones
E1 National Parks and Nature Reserves
E2 Environmental Conservation
E3 Environmental Management
E4 Environmental Living

Waterway Zones
W1 Natural Waterways
W2 Recreational Waterways
2.2 Zoning of land to which Plan applies

For the purposes of this Plan, land is within the zones shown on the Land Zoning Map.

2.3 Zone objectives and Land Use Table

(1) The Land Use Table at the end of this Part specifies for each zone:
   (a) the objectives for development, and
   (b) development that may be carried out without development consent, and
   (c) development that may be carried out only with development consent, and
   (d) development that is prohibited.

(2) The consent authority must have regard to the objectives for development in a zone when determining a development application in respect of land within the zone.

(3) In the Land Use Table at the end of this Part:
   (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
   (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Land Use Table in relation to the same zone.

(4) This clause is subject to the other provisions of this Plan.

Notes.

1 Schedule 1 sets out additional permitted uses for particular land.
2 Schedule 2 sets out exempt development (which is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
4 Clause 2.6 requires consent for subdivision of land.
5 Part 5 contains other provisions which require consent for particular development.
5A Part 7 contains other local provisions which require consent for particular development.
2.4 Unzoned land

(1) Development may be carried out on unzoned land only with development consent.

(2) Before granting development consent, the consent authority:
   (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
   (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

(1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
   (a) with development consent, or
   (b) if the Schedule so provides—without development consent, in accordance with the conditions (if any) specified in that Schedule in relation to that development.

(2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

2.6 Subdivision—consent requirements

(1) Land to which this Plan applies may be subdivided, but only with development consent.

Notes.

1 If a subdivision is specified as exempt development in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, the Act enables it to be carried out without development consent.

2 Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 provides that the strata subdivision of a building in certain circumstances is complying development.

(2) Development consent must not be granted for the subdivision of land on which a secondary dwelling is situated if the subdivision would result in the principal dwelling and the secondary dwelling being situated on separate lots, unless the resulting lots are not less than the minimum size shown on the Lot Size Map in relation to that land.

Note. The definition of secondary dwelling in the Dictionary requires the dwelling to be on the same lot of land as the principal dwelling.
2.7 Demolition requires development consent

The demolition of a building or work may be carried out only with development consent.

Note. If the demolition of a building or work is identified in an applicable environmental planning instrument, such as this Plan or State Environmental Planning Policy (Exempt and Complying Development Codes) 2008, as exempt development, the Act enables it to be carried out without development consent.

2.8 Temporary use of land

(1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.

(2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary use for a maximum period of 42 days (whether or not consecutive days) in any period of 12 months.

(3) Development consent must not be granted unless the consent authority is satisfied that:

(a) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any other applicable environmental planning instrument, and

(b) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and

(c) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and

(d) at the end of the temporary use period the land will, as far as is practicable, be restored to the condition in which it was before the commencement of the use.

(4) Despite subclause (2), the temporary use of a dwelling as a sales office for a new release area or a new housing estate may exceed the maximum number of days specified in that subclause.

(5) Subclause (3) (d) does not apply to the temporary use of a dwelling as a sales office mentioned in subclause (4).
Land Use Table

Note. A type of development referred to in the Land Use Table is a reference to that type of development only to the extent it is not regulated by an applicable State environmental planning policy. The following State environmental planning policies in particular may be relevant to development on land to which this Plan applies:

- State Environmental Planning Policy (Affordable Rental Housing) 2009 (including provision for secondary dwellings)
- State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004
- State Environmental Planning Policy (Infrastructure) 2007—relating to infrastructure facilities such as those that comprise, or are for, air transport, correction, education, electricity generating works and solar energy systems, health services, ports, railways, roads, waste management and water supply systems
- State Environmental Planning Policy (Mining, Petroleum Production and Extractive Industries) 2007
- State Environmental Planning Policy (Rural Lands) 2008
- State Environmental Planning Policy No 33—Hazardous and Offensive Development
- State Environmental Planning Policy No 50—Canal Estate Development
- State Environmental Planning Policy No 62—Sustainable Aquaculture
- State Environmental Planning Policy No 64—Advertising and Signage

Zone RU2 Rural Landscape

1 Objectives of zone

- To encourage sustainable primary industry production by maintaining and enhancing the natural resource base.
- To maintain the rural landscape character of the land.
- To provide for a range of compatible land uses, including extensive agriculture.
- To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
- To minimise conflict between land uses within this zone and land uses within adjoining zones.

2 Permitted without consent

- Extensive agriculture; Home businesses; Home occupations

3 Permitted with consent

- Agriculture; Animal boarding or training establishments; Bed and breakfast accommodation; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies (attached); Dwelling houses; Environmental facilities; Environmental protection works; Farm buildings; Farm stay accommodation; Forestry; Function centres; Home-based child care;

4 Prohibited
Any development not specified in item 2 or 3

Zone R2 Low Density Residential

1 Objectives of zone
- To provide for the housing needs of the community within a low density residential environment.
- To enable other land uses that provide facilities or services to meet the day to day needs of residents.
- To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent
Home businesses; Home occupations

3 Permitted with consent
Bed and breakfast accommodation; Boarding houses; Boat sheds; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies; Dwelling houses; Environmental protection works; Exhibition homes; Group homes; Health consulting rooms; Home-based child care; Home industries; Jetties; Places of public worship; Respite day care centres; Roads; Secondary dwellings; Veterinary hospitals; Water recreation structures

4 Prohibited
Any development not specified in item 2 or 3

Zone R3 Medium Density Residential

1 Objectives of zone
- To provide for the housing needs of the community within a medium density residential environment.
- To provide a variety of housing types within a medium density residential environment.
• To enable other land uses that provide facilities or services to meet the day to day needs of residents.
• To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent
   Home businesses; Home occupations

3 Permitted with consent
   Attached dwellings; Bed and breakfast accommodation; Boarding houses; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies; Dwelling houses; Environmental protection works; Exhibition homes; Group homes; Health consulting rooms; Home-based child care; Home industries; Multi dwelling housing; Neighbourhood shops; Places of public worship; Residential flat buildings; Respite day care centres; Roads; Secondary dwellings; Semi-detached dwellings; Seniors housing; Serviced apartments; Veterinary hospitals

4 Prohibited
   Any development not specified in item 2 or 3

Zone R5 Large Lot Residential

1 Objectives of zone
   • To provide residential housing in a rural setting while preserving, and minimising impacts on, environmentally sensitive locations and scenic quality.
   • To ensure that large residential lots do not hinder the proper and orderly development of urban areas in the future.
   • To ensure that development in the area does not unreasonably increase the demand for public services or public facilities.
   • To minimise conflict between land uses within this zone and land uses within adjoining zones.
   • To provide for a limited range of other land uses of a low intensity and scale, compatible with surrounding land uses.

2 Permitted without consent
   Home businesses; Home occupations
3 Permitted with consent

Bed and breakfast accommodation; Building identification signs; Business identification signs; Child care centres; Community facilities; Dual occupancies (attached); Dwelling houses; Environmental protection works; Home-based child care; Home industries; Horticulture; Respite day care centres; Roads; Secondary dwellings

4 Prohibited

Any development not specified in item 2 or 3

Zone B1 Neighbourhood Centre

1 Objectives of zone

• To provide a range of small-scale retail, business and community uses that serve the needs of people who live or work in the surrounding neighbourhood.

• To provide healthy, attractive, vibrant and safe neighbourhood centres.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Boarding houses; Business premises; Child care centres; Community facilities; Environmental protection works; Health consulting rooms; Home-based child care; Home industries; Information and education facilities; Jetties; Kiosks; Markets; Medical centres; Neighbourhood shops; Recreation areas; Recreation facilities (indoor); Respite day care centres; Restaurants or cafes; Roads; Shop top housing; Shops; Signage; Take away food and drink premises; Veterinary hospitals

4 Prohibited

   • To support and protect industrial land for industrial uses.
   • To enable a range of compatible services, community and recreation uses.
   • To accommodate uses that, because of demonstrated special building or site requirements or operational characteristics, cannot be or are inappropriate to be located in other zones.
   • To provide healthy, attractive, functional and safe light industrial areas.

2 Permitted without consent
   Nil

3 Permitted with consent
   Animal boarding or training establishments; Boat building and repair facilities; Crematoria; Depots; Environmental protection works; Freight transport facilities; Funeral homes; Hardware and building supplies; Horticulture; Industrial retail outlets; Industrial training facilities; Landscaping materials supplies; Light industries; Mortuaries; Neighbourhood shops; Recreation facilities (indoor); Roads; Service stations; Signage; Storage premises; Take away food and drink premises; Timber yards; Transport depots; Truck depots; Vehicle body repair workshops; Vehicle repair stations; Vehicle sales or hire premises; Warehouse or distribution centres; Waste disposal facilities; Water supply systems; Wholesale supplies

4 Prohibited
   Any development not specified in item 2 or 3
Zone IN4 Working Waterfront

1 Objectives of zone
   • To retain and encourage waterfront industrial and maritime activities.
   • To identify sites for maritime purposes and for activities that require direct waterfront access.
   • To ensure that development does not have an adverse impact on the environmental and visual qualities of the foreshore.
   • To encourage employment opportunities.
   • To minimise any adverse effect of development on land uses in other zones.
   • To provide for water-based business and service facilities that serve Pittwater and the wider region.

2 Permitted without consent
   Nil

3 Permitted with consent
   Boat building and repair facilities; Boat launching ramps; Charter and tourism boating facilities; Environmental protection works; Industrial retail outlets; Jetties; Kiosks; Light industries; Marinas; Roads; Signage; Water recreation structures; Wharf or boating facilities

4 Prohibited
   Any development not specified in item 2 or 3

Zone SP1 Special Activities

1 Objectives of zone
   • To provide for special land uses that are not provided for in other zones.
   • To provide for sites with special natural characteristics that are not provided for in other zones.
   • To facilitate development that is in keeping with the special characteristics of the site or its existing or intended special use, and that minimises any adverse impacts on surrounding land.

2 Permitted without consent
   Nil
3 Permitted with consent
   Building identification signs; Business identification signs; Environmental protection works; Roads; The purpose shown on the Land Zoning Map, including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited
   Any development not specified in item 2 or 3

Zone SP2 Infrastructure

1 Objectives of zone
   • To provide for infrastructure and related uses.
   • To prevent development that is not compatible with or that may detract from the provision of infrastructure.

2 Permitted without consent
   Nil

3 Permitted with consent
   Building identification signs; Business identification signs; Environmental protection works; Roads; The purpose shown on the Land Zoning Map, including any development that is ordinarily incidental or ancillary to development for that purpose

4 Prohibited

Zone SP3 Tourist

1 Objectives of zone
   • To provide for a variety of tourist-oriented development and related uses.

2 Permitted without consent
   Roads

3 Permitted with consent
   Camping grounds; Caravan parks; Eco-tourist facilities; Food and drink premises; Function centres; Information and education facilities; Tourist and visitor accommodation
4 Prohibited
Any development not specified in item 2 or 3

Zone RE1 Public Recreation

1 Objectives of zone
- To enable land to be used for public open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.
- To allow development that does not substantially diminish public use of, or access to, public open space resources.
- To provide passive and active public open space resources, and ancillary development, to meet the needs of the community.

2 Permitted without consent
Building identification signs; Environmental protection works; Horticulture; Markets; Roads

3 Permitted with consent
Child care centres; Community facilities; Environmental facilities; Information and education facilities; Kiosks; Public administration buildings; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Respite day care centres; Restaurants or cafes; Signage; Take away food and drink premises; Water recreation structures

4 Prohibited
Any development not specified in item 2 or 3

Zone RE2 Private Recreation

1 Objectives of zone
- To enable land to be used for private open space or recreational purposes.
- To provide a range of recreational settings and activities and compatible land uses.
- To protect and enhance the natural environment for recreational purposes.
• To allow development of a scale and character that is appropriate to the nature of its recreational use and is integrated with the landform and landscape.

2 Permitted without consent
Nil

3 Permitted with consent
Community facilities; Environmental facilities; Environmental protection works; Kiosks; Marinas; Recreation areas; Recreation facilities (indoor); Recreation facilities (outdoor); Registered clubs; Roads; Signage

4 Prohibited
Any development not specified in item 2 or 3

Zone E1 National Parks and Nature Reserves

1 Objectives of zone
• To enable the management and appropriate use of land that is reserved under the National Parks and Wildlife Act 1974 or that is acquired under Part 11 of that Act.
• To enable uses authorised under the National Parks and Wildlife Act 1974.
• To identify land that is to be reserved under the National Parks and Wildlife Act 1974 and to protect the environmental significance of that land.

2 Permitted without consent
Uses authorised under the National Parks and Wildlife Act 1974

3 Permitted with consent

4 Prohibited
Any development not specified in item 2 or 3

Zone E2 Environmental Conservation

1 Objectives of zone
• To protect, manage and restore areas of high ecological, scientific, cultural or aesthetic values.
Part 2 Land Use Table

2014 No 320

Pittwater Local Environmental Plan 2014

Clause 2.8

Land Use Table

- To prevent development that could destroy, damage or otherwise have an adverse effect on those values.
- To ensure the continued viability of ecological communities and threatened species.
- To protect, manage, restore and enhance the ecology, hydrology and scenic values of riparian corridors and waterways, groundwater resources, biodiversity corridors, areas of remnant native vegetation and dependent ecosystems.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Environmental facilities; Recreation areas; Roads

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone E3 Environmental Management

1 Objectives of zone

- To protect, manage and restore areas with special ecological, scientific, cultural or aesthetic values.
- To provide for a limited range of development that does not have an adverse effect on those values.
- To provide for residential development of a low density and scale, integrated with the landform and landscape and not visually prominent.
- To encourage development that retains and enhances riparian and foreshore vegetation and wildlife corridors.
- To ensure the continued viability of ecological communities and threatened species.

2 Permitted without consent

Home businesses; Home occupations
3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Building identification signs; Business identification signs; Community facilities; Dwelling houses; Environmental protection works; Health consulting rooms; Home-based child care; Home industries; Jetties; Roads; Water recreation structures

4 Prohibited

Industries; Multi dwelling housing; Residential flat buildings; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone E4 Environmental Living

1 Objectives of zone

- To provide for low-impact residential development in areas with special ecological, scientific or aesthetic values.
- To ensure that residential development does not have an adverse effect on those values.
- To provide for residential development of a low density and scale integrated with the landform and landscape.
- To encourage development that retains and enhances riparian and foreshore vegetation and wildlife corridors.

2 Permitted without consent

Home businesses; Home occupations

3 Permitted with consent

Bed and breakfast accommodation; Boat sheds; Building identification signs; Community facilities; Dwelling houses; Environmental protection works; Group homes; Health consulting rooms; Home-based child care; Home industries; Jetties; Places of public worship; Respite day care centres; Roads; Secondary dwellings; Water recreation structures

4 Prohibited

Industries; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3
Zone W1 Natural Waterways

1 Objectives of zone

- To protect the ecological and scenic values of natural waterways.
- To prevent development that would have an adverse effect on the natural values of waterways in this zone.
- To provide for sustainable fishing industries and recreational fishing.
- To ensure development does not adversely impact on the natural environment or obstruct the navigation of the waterway.
- To provide opportunities for private access to the waterway where these do not cause unnecessary impact on public access to the foreshore.

2 Permitted without consent

Environmental protection works

3 Permitted with consent

Environmental facilities; Mooring pens

4 Prohibited

Business premises; Hotel or motel accommodation; Industries; Multi dwelling housing; Recreation facilities (major); Residential flat buildings; Restricted premises; Retail premises; Seniors housing; Service stations; Warehouse or distribution centres; Any other development not specified in item 2 or 3

Zone W2 Recreational Waterways

1 Objectives of zone

- To protect the ecological, scenic and recreation values of recreational waterways.
- To allow for water-based recreation and related uses.
- To provide for sustainable fishing industries and recreational fishing.
- To provide for amateur and professional recreational yachting or boating clubs and the like that serve Pittwater and the wider region.
- To ensure development does not adversely impact on the enjoyment and use of the waterway or adjoining land.
2014 No 320
Clause 2.8 Pittwater Local Environmental Plan 2014
Part 2 Land Use Table

- To provide for a variety of passive and active recreational pursuits and water-based transport while preserving the environmental setting of the waterway.
- To ensure that public access to the waterway and foreshore areas suitable for public recreational and transport purposes is maintained.

2 Permitted without consent
   Environmental protection works

3 Permitted with consent
   Boat building and repair facilities; Boat launching ramps; Boat sheds; Charter and tourism boating facilities; Emergency services facilities; Environmental facilities; Jetties; Kiosks; Marinas; Mooring pens; Signage; Water recreation structures

4 Prohibited
   Industries; Multi dwelling housing; Residential flat buildings; Seniors housing; Warehouse or distribution centres; Any other development not specified in item 2 or 3
Part 3  Exempt and complying development

3.1  Exempt development

Note. Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:
(a) must be of minimal environmental impact, and
(b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994), and
(c) cannot be carried out in a wilderness area (identified under the Wilderness Act 1987).

(1) The objective of this clause is to identify development of minimal environmental impact as exempt development.

(2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.

(3) To be exempt development, the development:
(a) must meet the relevant deemed-to-satisfy provisions of the Building Code of Australia or, if there are no such relevant provisions, must be structurally adequate, and
(b) must not, if it relates to an existing building, cause the building to contravene the Building Code of Australia, and
(c) must not be designated development, and
(d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the Heritage Act 1977 or that is subject to an interim heritage order under the Heritage Act 1977.

(4) Development that relates to an existing building that is classified under the Building Code of Australia as class 1b or class 2–9 is exempt development only if:
(a) the building has a current fire safety certificate or fire safety statement, or
(b) no fire safety measures are currently implemented, required or proposed for the building.

(5) To be exempt development, the development must:
(a) be installed in accordance with the manufacturer’s specifications, if applicable, and
3.2 Complying development

Note. Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate. The section states that development cannot be complying development if:

(a) it is on land that is critical habitat of an endangered species, population or ecological community (identified under the Threatened Species Conservation Act 1995 or the Fisheries Management Act 1994), or

(b) it is on land within a wilderness area (identified under the Wilderness Act 1987), or

(c) the development is designated development, or

(d) the development is on land that comprises, or on which there is, an item of environmental heritage (that is listed on the State Heritage Register or in Schedule 5 to this Plan or that is subject to an interim heritage order under the Heritage Act 1977), or

(e) the development requires concurrence (except a concurrence of the Director-General of the Department of Environment, Climate Change and Water in respect of development that is likely to significantly affect a threatened species, population, or ecological community, or its habitat (identified under the Threatened Species Conservation Act 1995)), or

(f) the development is on land identified as an environmentally sensitive area.

(1) The objective of this clause is to identify development as complying development.

(2) Development specified in Part 1 of Schedule 3 that is carried out in compliance with:

(a) the development standards specified in relation to that development, and

(b) the requirements of this Part, is complying development.

Note. See also clause 5.8 (3) which provides that the conversion of fire alarms is complying development in certain circumstances.
(3) To be complying development, the development must:
   (a) be permissible, with development consent, in the zone in which it is carried out, and
   (b) meet the relevant deemed-to-satisfy provisions of the Building Code of Australia, and
   (c) have an approval, if required by the Local Government Act 1993, from the Council for an on-site effluent disposal system if the development is undertaken on unsewered land.

(4) A complying development certificate for development specified in Part 1 of Schedule 3 is subject to the conditions (if any) set out or referred to in Part 2 of that Schedule.

(5) A heading to an item in Schedule 3 is part of that Schedule.

3.3 Environmentally sensitive areas excluded

(1) Exempt or complying development must not be carried out on any environmentally sensitive area for exempt or complying development.

(2) For the purposes of this clause:
   
   environmentally sensitive area for exempt or complying development means any of the following:
   
   (a) the coastal waters of the State,
   (b) a coastal lake,
   (c) land to which State Environmental Planning Policy No 14—Coastal Wetlands or State Environmental Planning Policy No 26—Littoral Rainforests applies,
   (d) land reserved as an aquatic reserve under the Fisheries Management Act 1994 or as a marine park under the Marine Parks Act 1997,
   (e) land within a wetland of international significance declared under the Ramsar Convention on Wetlands or within a World heritage area declared under the World Heritage Convention,
   (f) land within 100 metres of land to which paragraph (c), (d) or (e) applies,
   (g) land identified in this or any other environmental planning instrument as being of high Aboriginal cultural significance or high biodiversity significance,
   (h) land reserved under the National Parks and Wildlife Act 1974 or land acquired under Part 11 of that Act,
2014 No 320

Clause 3.3  Pittwater Local Environmental Plan 2014

Part 3  Exempt and complying development

(i) land reserved or dedicated under the *Crown Lands Act 1989* for the preservation of flora, fauna, geological formations or for other environmental protection purposes,

(j) land identified as being critical habitat under the *Threatened Species Conservation Act 1995* or Part 7A of the *Fisheries Management Act 1994*. 

[Page 32]
Part 4 Principal development standards

4.1 Minimum subdivision lot size

(1) The objectives of this clause are as follows:
   (a) to protect residential character and amenity by providing for subdivision where all resulting lots are consistent with the desired character of the locality, and the pattern, size and configuration of existing lots in the locality,
   (b) to provide for subdivision where all resulting lots are capable of providing for the construction of a building that is safe from hazards,
   (c) to provide for subdivision where all resulting lots are capable of providing for buildings that will not unacceptably impact on the natural environment or the amenity of neighbouring properties,
   (d) to provide for subdivision that does not adversely affect the heritage significance of any heritage item or heritage conservation area,
   (e) to provide for subdivision where all resulting lots can be provided with adequate and safe access and services,
   (f) to maintain the existing function and character of rural areas and minimise fragmentation of rural land,
   (g) to ensure that lot sizes and dimensions are able to accommodate development consistent with relevant development controls.

(2) This clause applies to a subdivision of any land shown on the Lot Size Map that requires development consent and that is carried out after the commencement of this Plan.

(3) The size of any lot resulting from a subdivision of land to which this clause applies is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

(3A) If a lot is a battle-axe lot or other lot with an access handle, the area of the access handle is not to be included in calculating the lot size.

(4) This clause does not apply in relation to the subdivision of individual lots in a strata plan or community title scheme.

4.1AA Minimum subdivision lot size for community title schemes

(1) The objectives of this clause are as follows:
   (a) to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.
(2) This clause applies to a subdivision (being a subdivision that requires development consent) under the Community Land Development Act 1989 of land in any of the following zones:

(a) Zone RU2 Rural Landscape,
(b) Zone R2 Low Density Residential,
(c) Zone R5 Large Lot Residential,
(d) Zone E4 Environmental Living.

(3) The size of any lot resulting from a subdivision of land to which this clause applies (other than any lot comprising association property within the meaning of the Community Land Development Act 1989) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.

4.1B Minimum lot sizes for dual occupancies

(1) The objectives of this clause are as follows:

(a) to achieve planned residential density,
(b) to maintain a high level of residential amenity, including adequate provision of private open space.

(2) Development consent may only be granted to development on a lot for the purpose of a dual occupancy if:

(a) the development is permitted on that lot with development consent, and
(b) the area of the lot is equal to or greater than 800 square metres.

4.2 Rural subdivision

(1) The objective of this clause is to provide flexibility in the application of standards for subdivision in rural zones to allow land owners a greater chance to achieve the objectives for development in the relevant zone.

(2) This clause applies to the following rural zones:

(a) Zone RU1 Primary Production,
(b) Zone RU2 Rural Landscape,
(c) Zone RU4 Primary Production Small Lots,
(d) Zone RU6 Transition.

Note. When this Plan was made it did not include all of these zones.

(3) Land in a zone to which this clause applies may, with development consent, be subdivided for the purpose of primary production to create a lot of a size that is less than the minimum size shown on the Lot Size Map in relation to that land.
(4) However, such a lot cannot be created if an existing dwelling would, as the result of the subdivision, be situated on the lot.

(5) A dwelling cannot be erected on such a lot.  
    Note. A dwelling includes a rural worker’s dwelling (see definition of that term in the Dictionary).

4.2A Minimum subdivision lot size for strata plan schemes in certain rural, residential and environment protection zones

(1) The objective of this clause is to ensure that land to which this clause applies is not fragmented by subdivisions that would create additional dwelling entitlements.

(2) This clause applies to land in the following zones that is used, or is proposed to be used, for the purpose of a dual occupancy:
    (a) Zone RU2 Rural Landscape,
    (b) Zone R2 Low Density Residential,
    (c) Zone R5 Large Lot Residential,
    (d) Zone E4 Environmental Living.

(3) The size of any lot resulting from a subdivision of land to which this clause applies for a strata plan scheme (other than any lot comprising common property within the meaning of the Strata Schemes (Freehold Development) Act 1973 or Strata Schemes (Leasehold Development) Act 1986) is not to be less than the minimum size shown on the Lot Size Map in relation to that land.  
    Note. Part 6 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 provides that strata subdivision of a building in certain circumstances is specified complying development.

(4) This clause does not apply to the strata subdivision of land used, or proposed to be used, for the purpose of a dual occupancy for which development consent was granted on or before 2 June 2003.

4.3 Height of buildings

(1) The objectives of this clause are as follows:
    (a) to ensure that any building, by virtue of its height and scale, is consistent with the desired character of the locality,
    (b) to ensure that buildings are compatible with the height and scale of surrounding and nearby development,
    (c) to minimise any overshadowing of neighbouring properties,
    (d) to allow for the reasonable sharing of views,
    (e) to encourage buildings that are designed to respond sensitively to the natural topography,
(f) to minimise the adverse visual impact of development on the natural environment, heritage conservation areas and heritage items.

(2) The height of a building on any land is not to exceed the maximum height shown for the land on the Height of Buildings Map.

(2A) Despite subclause (2), development on land:

(a) at or below the flood planning level or identified as “Coastal Erosion/Wave Inundation” on the Coastal Risk Planning Map, and

(b) that has a maximum building height of 8.5 metres shown for that land on the Height of Buildings Map, may exceed a height of 8.5 metres, but not be more than 8.0 metres above the flood planning level.

(2B) Despite subclause (2), development on land:

(a) at or below the flood planning level or identified as “Coastal Erosion/Wave Inundation” on the Coastal Risk Planning Map, and

(b) that has a maximum building height of 11 metres shown for that land on the Height of Buildings Map, may exceed a height of 11 metres, but not be more than 10.5 metres above the flood planning level.

(2C) Despite subclause (2), development on an area of land shown in Column 1 of the table to this subclause and identified as such on the Height of Buildings Map, may exceed the maximum building height shown on the Height of Buildings Map for that land, if the height of the development is not greater than the height shown opposite that area in Column 2.

Part 4 Principal development standards

(2D) Despite subclause (2), development on land that has a maximum building height of 8.5 metres shown for that land on the Height of Buildings Map may exceed a height of 8.5 metres, but not be more than 10.0 metres if:

(a) the consent authority is satisfied that the portion of the building above the maximum height shown for that land on the Height of Buildings Map is minor, and

(b) the objectives of this clause are achieved, and

(c) the building footprint is situated on a slope that is in excess of 16.7 degrees (that is, 30%), and

(d) the buildings are sited and designed to take into account the slope of the land to minimise the need for cut and fill by designs that allow the building to step down the slope.

(2E) Despite subclause (2), development for the purposes of shop top housing on land identified as “Area 5” on the Height of Buildings Map may have a height of up to 10 metres if the top floor of the building is setback a minimum of 6 metres from the boundary to the primary street frontage.

(2F) Despite subclause (2), development on land identified as “Area 6” on the Height of Buildings Map must not exceed 8.5 metres at the street frontage.

(2G) In this clause:

- "flood planning level" means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metres freeboard, or other freeboard determined by an adopted floodplain risk management plan.

- "floodplain risk management plan" has the same meaning as it has in the Floodplain Development Manual (ISBN 0 7347 5476 0), published in 2005 by the NSW Government.

4.4 Floor space ratio

(1) The objectives of this clause are as follows:

(a) to ensure that buildings, by virtue of their bulk and scale, are consistent with the desired character of the locality,

(b) to minimise adverse environmental effects on the use and enjoyment of adjoining properties and the public domain,

(c) to minimise any overshadowing and loss of privacy to neighbouring properties and to reduce the visual impact of any development,

(d) to maximise solar access and amenity for public places,
(e) to minimise the adverse impact of development on the natural environment, heritage conservation areas and heritage items,

(f) to manage the visual impact of development when viewed from public places, including waterways,

(g) to allow for the reasonable sharing of views.

(2) The maximum floor space ratio for a building on any land is not to exceed the floor space ratio shown for the land on the Floor Space Ratio Map.

4.5 Calculation of floor space ratio and site area

(1) Objectives

The objectives of this clause are as follows:

(a) to define floor space ratio,

(b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:

(i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and

(ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and

(iii) require community land and public places to be dealt with separately.

(2) Definition of “floor space ratio”

The floor space ratio of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the site area is taken to be:

(a) if the proposed development is to be carried out on only one lot, the area of that lot, or

(b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.
(4) **Exclusions from site area**

The following land must be excluded from the site area:

(a) land on which the proposed development is prohibited, whether under this Plan or any other law,

(b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions**

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included**

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered**

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings**

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”**

When development consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of floor area will be created on another lot only because the site included the restricted lot.
**Covenants affect consolidated sites**

If:
(a) a covenant of the kind referred to in subclause (9) applies to any land *(affected land)*, and
(b) proposed development relates to the affected land and other land that together comprise the site of the proposed development,
the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

**Definition**

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

**Density controls for certain residential accommodation**

(1) The objectives of this clause are as follows:
(a) to achieve planned residential density in certain zones,
(b) to ensure building density is consistent with the desired character of the locality.

(2) Development consent must not be granted to development for a purpose specified in Column 1 of the table to this clause on land in the zone shown opposite that development in Column 2 of that table unless the development complies with the density requirements specified in Column 3 of that table.

(3) This clause does not apply to land in the Warriewood Valley Release Area.

(4) In this clause:
*Warriewood Valley Release Area* means the area identified as Warriewood Valley Release Area on the Urban Release Area Map.

4.6 Exceptions to development standards

(1) The objectives of this clause are as follows:
   (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development,
   (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

(3) Development consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
   (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
   (b) that there are sufficient environmental planning grounds to justify contravening the development standard.

(4) Development consent must not be granted for development that contravenes a development standard unless:

(a) the consent authority is satisfied that:
   (i) the applicant’s written request has adequately addressed the matters required to be demonstrated by subclause (3), and
   (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and

(b) the concurrence of the Director-General has been obtained.

(5) In deciding whether to grant concurrence, the Director-General must consider:

(a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and

(b) the public benefit of maintaining the development standard, and

(c) any other matters required to be taken into consideration by the Director-General before granting concurrence.

(6) Development consent must not be granted under this clause for a subdivision of land in Zone RU1 Primary Production, Zone RU2 Rural Landscape, Zone RU3 Forestry, Zone RU4 Primary Production Small Lots, Zone RU6 Transition, Zone R5 Large Lot Residential, Zone E2 Environmental Conservation, Zone E3 Environmental Management or Zone E4 Environmental Living if:

(a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or

(b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.

Note. When this Plan was made it did not include all of these zones.

(7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant’s written request referred to in subclause (3).

(8) This clause does not allow development consent to be granted for development that would contravene any of the following:

(a) a development standard for complying development,
(b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004 applies or for the land on which such a building is situated,

(c) clause 5.4.
Part 5  Miscellaneous provisions

5.1  Relevant acquisition authority

(1) The objective of this clause is to identify, for the purposes of section 27 of the Act, the authority of the State that will be the relevant authority to acquire land reserved for certain public purposes if the land is required to be acquired under Division 3 of Part 2 of the *Land Acquisition (Just Terms Compensation) Act 1991* (*the owner-initiated acquisition provisions*).

**Note.** If the landholder will suffer hardship if there is any delay in the land being acquired by the relevant authority, section 23 of the *Land Acquisition (Just Terms Compensation) Act 1991* requires the authority to acquire the land.

(2) The authority of the State that will be the relevant authority to acquire land, if the land is required to be acquired under the owner-initiated acquisition provisions, is the authority of the State specified below in relation to the land shown on the Land Reservation Acquisition Map (or, if an authority of the State is not specified in relation to land required to be so acquired, the authority designated or determined under those provisions).

(3) Development on land acquired by an authority of the State under the owner-initiated acquisition provisions may, before it is used for the purpose for which it is reserved, be carried out, with development consent, for any purpose.
5.1A Development on land intended to be acquired for public purposes

(1) The objective of this clause is to limit development on certain land intended to be acquired for a public purpose.

(2) This clause applies to land shown on the Land Reservation Acquisition Map and specified in Column 1 of the table to this clause and that has not been acquired by the relevant authority of the State specified for the land in clause 5.1.

(3) Development consent must not be granted to any development on land to which this clause applies other than development for a purpose specified opposite that land in Column 2 of that table.

5.2 Classification and reclassification of public land

(1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the Local Government Act 1993.

Note. Under the Local Government Act 1993, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the Local Government Act 1993. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.
(2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the Local Government Act 1993.

(3) The public land described in Part 3 of Schedule 4 is classified, or reclassified, as community land for the purposes of the Local Government Act 1993.

(4) The public land described in Part 1 of Schedule 4:
   (a) does not cease to be a public reserve to the extent (if any) that it is a public reserve, and
   (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.

(5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:
   (a) those (if any) specified for the land in Column 3 of Part 2 of Schedule 4, and
   (b) any reservations that except land out of the Crown grant relating to the land, and
   (c) reservations of minerals (within the meaning of the Crown Lands Act 1989).

Note. In accordance with section 30 (2) of the Local Government Act 1993, the approval of the Governor to subclause (5) applying to the public land concerned is required before the description of the land is inserted in Part 2 of Schedule 4.

5.3 Development near zone boundaries
[Not adopted]

5.4 Controls relating to miscellaneous permissible uses

1) Bed and breakfast accommodation

If development for the purposes of bed and breakfast accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

Note. Any such development that provides for a certain number of guests or rooms may involve a change in the class of building under the Building Code of Australia.
(2) **Home businesses**
If development for the purposes of a home business is permitted under this Plan, the carrying on of the business must not involve the use of more than 50 square metres of floor area.

(3) **Home industries**
If development for the purposes of a home industry is permitted under this Plan, the carrying on of the home industry must not involve the use of more than 50 square metres of floor area.

(4) **Industrial retail outlets**
If development for the purposes of an industrial retail outlet is permitted under this Plan, the retail floor area must not exceed:

(a) 33% of the gross floor area of the industry or rural industry located on the same land as the retail outlet, or
(b) 400 square metres,
whichever is the lesser.

(5) **Farm stay accommodation**
If development for the purposes of farm stay accommodation is permitted under this Plan, the accommodation that is provided to guests must consist of no more than 3 bedrooms.

(6) **Kiosks**
If development for the purposes of a kiosk is permitted under this Plan, the gross floor area must not exceed 20 square metres.

(7) **Neighbourhood shops**
If development for the purposes of a neighbourhood shop is permitted under this Plan, the retail floor area must not exceed 100 square metres.

(8) **Roadside stalls**
If development for the purposes of a roadside stall is permitted under this Plan, the gross floor area must not exceed 10 square metres.

(9) **Secondary dwellings**
If development for the purposes of a secondary dwelling is permitted under this Plan, the total floor area of the dwelling (excluding any area used for parking) must not exceed whichever of the following is the greater:

(a) 60 square metres,
(b) 25% of the total floor area of the principal dwelling.
5.5 Development within the coastal zone

(1) The objectives of this clause are as follows:

(a) to provide for the protection of the coastal environment of the State for the benefit of both present and future generations through promoting the principles of ecologically sustainable development,

(b) to implement the principles in the NSW Coastal Policy, and in particular to:

   (i) protect, enhance, maintain and restore the coastal environment, its associated ecosystems, ecological processes and biological diversity and its water quality, and

   (ii) protect and preserve the natural, cultural, recreational and economic attributes of the NSW coast, and

   (iii) provide opportunities for pedestrian public access to and along the coastal foreshore, and

   (iv) recognise and accommodate coastal processes and climate change, and

   (v) protect amenity and scenic quality, and

   (vi) protect and preserve rock platforms, beach environments and beach amenity, and

   (vii) protect and preserve native coastal vegetation, and

   (viii) protect and preserve the marine environment, and

   (ix) ensure that the type, bulk, scale and size of development is appropriate for the location and protects and improves the natural scenic quality of the surrounding area, and

   (x) ensure that decisions in relation to new development consider the broader and cumulative impacts on the catchment, and

   (xi) protect Aboriginal cultural places, values and customs, and

   (xii) protect and preserve items of heritage, archaeological or historical significance.

(2) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority has considered:

(a) existing public access to and along the coastal foreshore for pedestrians (including persons with a disability) with a view to:

   (i) maintaining existing public access and, where possible, improving that access, and

   (ii) identifying opportunities for new public access, and
(b) the suitability of the proposed development, its relationship with the surrounding area and its impact on the natural scenic quality, taking into account:
   (i) the type of the proposed development and any associated land uses or activities (including compatibility of any land-based and water-based coastal activities), and
   (ii) the location, and
   (iii) the bulk, scale, size and overall built form design of any building or work involved, and

(c) the impact of the proposed development on the amenity of the coastal foreshore including:
   (i) any significant overshadowing of the coastal foreshore, and
   (ii) any loss of views from a public place to the coastal foreshore, and

(d) how the visual amenity and scenic qualities of the coast, including coastal headlands, can be protected, and

(e) how biodiversity and ecosystems, including:
   (i) native coastal vegetation and existing wildlife corridors, and
   (ii) rock platforms, and
   (iii) water quality of coastal waterbodies, and
   (iv) native fauna and native flora, and their habitats, can be conserved, and

(f) the cumulative impacts of the proposed development and other development on the coastal catchment.

(3) Development consent must not be granted to development on land that is wholly or partly within the coastal zone unless the consent authority is satisfied that:

(a) the proposed development will not impede or diminish, where practicable, the physical, land-based right of access of the public to or along the coastal foreshore, and

(b) if effluent from the development is disposed of by a non-reticulated system, it will not have a negative effect on the water quality of the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and
(c) the proposed development will not discharge untreated stormwater into the sea, or any beach, estuary, coastal lake, coastal creek or other similar body of water, or a rock platform, and

(d) the proposed development will not:
   (i) be significantly affected by coastal hazards, or
   (ii) have a significant impact on coastal hazards, or
   (iii) increase the risk of coastal hazards in relation to any other land.

5.6 Architectural roof features
[Not adopted]

5.7 Development below mean high water mark
(1) The objective of this clause is to ensure appropriate environmental assessment for development carried out on land covered by tidal waters.

(2) Development consent is required to carry out development on any land below the mean high water mark of any body of water subject to tidal influence (including the bed of any such water).

5.8 Conversion of fire alarms
(1) This clause applies to a fire alarm system that can be monitored by Fire and Rescue NSW or by a private service provider.

(2) The following development may be carried out, but only with development consent:
   (a) converting a fire alarm system from connection with the alarm monitoring system of Fire and Rescue NSW to connection with the alarm monitoring system of a private service provider,
   (b) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with the alarm monitoring system of another private service provider,
   (c) converting a fire alarm system from connection with the alarm monitoring system of a private service provider to connection with a different alarm monitoring system of the same private service provider.

(3) Development to which subclause (2) applies is complying development if it consists only of:
   (a) internal alterations to a building, or
(b) internal alterations to a building together with the mounting of an antenna, and any support structure, on an external wall or roof of a building so as to occupy a space of not more than 450mm × 100mm × 100mm.

(4) A complying development certificate for any such complying development is subject to a condition that any building work may only be carried out between 7.00 am and 6.00 pm on Monday to Friday and between 7.00 am and 5.00 pm on Saturday, and must not be carried out on a Sunday or a public holiday.

(5) In this clause:

private service provider means a person or body that has entered into an agreement that is in force with Fire and Rescue NSW to monitor fire alarm systems.

5.9 Preservation of trees or vegetation

(1) The objective of this clause is to preserve the amenity of the area, including biodiversity values, through the preservation of trees and other vegetation.

(2) This clause applies to species or kinds of trees or other vegetation that are prescribed for the purposes of this clause by a development control plan made by the Council.

Note. A development control plan may prescribe the trees or other vegetation to which this clause applies by reference to species, size, location or other manner.

(3) A person must not ringbark, cut down, top, lop, remove, injure or wilfully destroy any tree or other vegetation to which any such development control plan applies without the authority conferred by:

(a) development consent, or
(b) a permit granted by the Council.

(4) The refusal by the Council to grant a permit to a person who has duly applied for the grant of the permit is taken for the purposes of the Act to be a refusal by the Council to grant consent for the carrying out of the activity for which a permit was sought.

(5) This clause does not apply to a tree or other vegetation that the Council is satisfied is dying or dead and is not required as the habitat of native fauna.

(6) This clause does not apply to a tree or other vegetation that the Council is satisfied is a risk to human life or property.
(7) A permit under this clause cannot allow any ringbarking, cutting down, topping, lopping, removal, injuring or destruction of a tree or other vegetation:
   (a) that is or forms part of a heritage item or that is within a heritage conservation area, or
   (b) that is or forms part of an Aboriginal object or that is within an Aboriginal place of heritage significance,
   unless the Council is satisfied that the proposed activity:
   (c) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area, and
   (d) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or heritage conservation area.

Note. As a consequence of this subclause, the activities concerned will require development consent. The heritage provisions of clause 5.10 will be applicable to any such consent.

(8) This clause does not apply to or in respect of:
   (a) the clearing of native vegetation:
      (i) that is authorised by a development consent or property vegetation plan under the Native Vegetation Act 2003, or
      (ii) that is otherwise permitted under Division 2 or 3 of Part 3 of that Act, or
   (b) the clearing of vegetation on State protected land (within the meaning of clause 4 of Schedule 3 to the Native Vegetation Act 2003) that is authorised by a development consent under the provisions of the Native Vegetation Conservation Act 1997 as continued in force by that clause, or
   (c) trees or other vegetation within a State forest, or land reserved from sale as a timber or forest reserve under the Forestry Act 1916, or
   (d) action required or authorised to be done by or under the Electricity Supply Act 1995, the Roads Act 1993 or the Surveying and Spatial Information Act 2002, or
   (e) plants declared to be noxious weeds under the Noxious Weeds Act 1993.

Note. Permissibility may be a matter that is determined by or under any of these Acts.

(9) [Not adopted]
5.9AA Trees or vegetation not prescribed by development control plan

(1) This clause applies to any tree or other vegetation that is not of a species or kind prescribed for the purposes of clause 5.9 by a development control plan made by the Council.

(2) The ringbarking, cutting down, topping, lopping, removal, injuring or destruction of any tree or other vegetation to which this clause applies is permitted without development consent.

5.10 Heritage conservation

Note. Heritage items (if any) are listed and described in Schedule 5. Heritage conservation areas (if any) are shown on the Heritage Map as well as being described in Schedule 5.

(1) Objectives

The objectives of this clause are as follows:

(a) to conserve the environmental heritage of Pittwater,
(b) to conserve the heritage significance of heritage items and heritage conservation areas, including associated fabric, settings and views,
(c) to conserve archaeological sites,
(d) to conserve Aboriginal objects and Aboriginal places of heritage significance.

(2) Requirement for consent

Development consent is required for any of the following:

(a) demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):
   (i) a heritage item,
   (ii) an Aboriginal object,
   (iii) a building, work, relic or tree within a heritage conservation area,

(b) altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,

(c) disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,

(d) disturbing or excavating an Aboriginal place of heritage significance,
(e) erecting a building on land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,

(f) subdividing land:
   (i) on which a heritage item is located or that is within a heritage conservation area, or
   (ii) on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.

(3) **When consent not required**

However, development consent under this clause is not required if:

(a) the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:
   (i) is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and
   (ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or

(b) the development is in a cemetery or burial ground and the proposed development:
   (i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and
   (ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or

(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or

(d) the development is exempt development.

(4) **Effect of proposed development on heritage significance**

The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the
item or area concerned. This subclause applies regardless of whether a heritage management document is prepared under subclause (5) or a heritage conservation management plan is submitted under subclause (6).

(5) **Heritage assessment**

The consent authority may, before granting consent to any development:

(a) on land on which a heritage item is located, or

(b) on land that is within a heritage conservation area, or

(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),

require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.

(6) **Heritage conservation management plans**

The consent authority may require, after considering the heritage significance of a heritage item and the extent of change proposed to it, the submission of a heritage conservation management plan before granting consent under this clause.

(7) **Archaeological sites**

The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the *Heritage Act 1977* applies):

(a) notify the Heritage Council of its intention to grant consent, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(8) **Aboriginal places of heritage significance**

The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:

(a) consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and
(b) notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.

(9) **Demolition of nominated State heritage items**

The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:

(a) notify the Heritage Council about the application, and

(b) take into consideration any response received from the Heritage Council within 28 days after the notice is sent.

(10) **Conservation incentives**

The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:

(a) the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and

(b) the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and

(c) the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and

(d) the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and

(e) the proposed development would not have any significant adverse effect on the amenity of the surrounding area.

5.11 **Bush fire hazard reduction**

Bush fire hazard reduction work authorised by the *Rural Fires Act 1997* may be carried out on any land without development consent.

**Note.** The *Rural Fires Act 1997* also makes provision relating to the carrying out of development on bush fire prone land.

5.12 **Infrastructure development and use of existing buildings of the Crown**

(1) This Plan does not restrict or prohibit, or enable the restriction or prohibition of, the carrying out of any development, by or on behalf of
a public authority, that is permitted to be carried out with or without
development consent, or that is exempt development, under *State
Environmental Planning Policy (Infrastructure) 2007*.

(2) This Plan does not restrict or prohibit, or enable the restriction or
prohibition of, the use of existing buildings of the Crown by the Crown.

### 5.13 Eco-tourist facilities

(1) The objectives of this clause are as follows:

(a) to maintain the environmental and cultural values of land on
which development for the purposes of eco-tourist facilities is
carried out,

(b) to provide for sensitively designed and managed eco-tourist
facilities that have minimal impact on the environment both on
and off-site.

(2) This clause applies if development for the purposes of an eco-tourist
facility is permitted with development consent under this Plan.

(3) The consent authority must not grant consent under this Plan to carry
out development for the purposes of an eco-tourist facility unless the
consent authority is satisfied that:

(a) there is a demonstrated connection between the development and
the ecological, environmental and cultural values of the site or
area, and

(b) the development will be located, constructed, managed and
maintained so as to minimise any impact on, and to conserve, the
natural environment, and

(c) the development will enhance an appreciation of the
environmental and cultural values of the site or area, and

(d) the development will promote positive environmental outcomes
and any impact on watercourses, soil quality, heritage and
indigenous flora and fauna will be minimal, and

(e) the site will be maintained (or regenerated where necessary) to
ensure the continued protection of natural resources and
enhancement of the natural environment, and

(f) waste generation during construction and operation will be
avoided and that any waste will be appropriately removed, and

(g) the development will be located to avoid visibility above
ridgelines and against escarpments and from watercourses and
that any visual intrusion will be minimised through the choice of
design, colours materials and landscaping with local indigenous
flora, and
(h) any infrastructure services to the site will be provided without significant modification to the environment, and
(i) any power and water to the site will, where possible, be provided through the use of passive heating and cooling, renewable energy sources and water efficient design, and
(j) the development will not adversely affect the agricultural productivity of adjoining land, and
(k) the following matters are addressed or provided for in a management strategy for minimising any impact on the natural environment:
   (i) measures to remove any threat of serious or irreversible environmental damage,
   (ii) the maintenance (or regeneration where necessary) of habitats,
   (iii) efficient and minimal energy and water use and waste output,
   (iv) mechanisms for monitoring and reviewing the effect of the development on the natural environment,
   (v) maintaining improvements on an on-going basis in accordance with relevant ISO 14000 standards relating to management and quality control.
Part 6 Urban release areas

6.1 Warriewood Valley Release Area

(1) The objectives of this clause are as follows:
   (a) to permit development in the Warriewood Valley Release Area in accordance with the Warriewood Valley Strategic Review,
   (b) to ensure that development in that area does not adversely impact on waterways and creek line corridors, protects existing native riparian vegetation and rehabilitates the creek line corridors,
   (c) to facilitate the mitigation of odours from the Warriewood Sewage Treatment Plant on the users and occupiers of residential development in a buffer area.

(2) This clause applies to the land in the Warriewood Valley Release Area.

(3) Development consent must not be granted for development on land in a buffer area or sector or at an address mentioned in Column 1 of the table to this clause unless the consent authority is satisfied that the total number of dwellings shown opposite that buffer area, sector or address in Column 2 of that table will be erected.

(4) Development consent must not be granted for development on land to which this clause applies unless the consent authority is satisfied that the proposed development will not have any significant adverse impact on any of the following:

(a) opportunities for rehabilitation of aquatic and riparian vegetation, habitats and ecosystems within creek line corridors,
(b) the water quality and flows within creek line corridors,
(c) the stability of the bed, shore, and banks of any watercourse within creek line corridors.

(5) In this clause:

- **buffer area** means land identified as “buffer area” on the Urban Release Area Map.
- **creek line corridor** means land identified as “creek line corridor” on the Urban Release Area Map.
- **sector** means land identified as “sector” on the Urban Release Area Map.
- **Warriewood Valley Release Area** means the land identified as Warriewood Valley Release Area on the Urban Release Area Map.

Part 7 Additional local provisions

7.1 Acid sulfate soils

(1) The objective of this clause is to ensure that development does not disturb, expose or drain acid sulfate soils and cause environmental damage.

(2) Development consent is required for the carrying out of works described in the table to this subclause on land shown on the Acid Sulfate Soils Map as being of the class specified for those works.

</tr>
</tbody>
</table>

(3) Development consent must not be granted under this clause for the carrying out of works unless an acid sulfate soils management plan has been prepared for the proposed works in accordance with the Acid Sulfate Soils Manual and has been provided to the consent authority.

(4) Despite subclause (2), development consent is not required under this clause for the carrying out of works if:

(a) a preliminary assessment of the proposed works prepared in accordance with the Acid Sulfate Soils Manual indicates that an acid sulfate soils management plan is not required for the works, and

(b) the preliminary assessment has been provided to the consent authority and the consent authority has confirmed the assessment by notice in writing to the person proposing to carry out the works.
(5) Despite subclause (2), development consent is not required under this clause for the carrying out of any of the following works by a public authority (including ancillary work such as excavation, construction of access ways or the supply of power):

(a) emergency work, being the repair or replacement of the works of the public authority, required to be carried out urgently because the works have been damaged, have ceased to function or pose a risk to the environment or to public health and safety,

(b) routine maintenance work, being the periodic inspection, cleaning, repair or replacement of the works of the public authority (other than work that involves the disturbance of more than 1 tonne of soil),

(c) minor work, being work that costs less than $20,000 (other than drainage work).

(6) Despite subclause (2), development consent is not required under this clause to carry out any works if:

(a) the works involve the disturbance of less than 1 tonne of soil, and

(b) the works are not likely to lower the watertable.

7.2 Earthworks

(1) The objective of this clause is to ensure that earthworks for which development consent is required will not have a detrimental impact on environmental functions and processes, neighbouring uses, cultural or heritage items or features of the surrounding land.

(2) Development consent is required for earthworks unless:

(a) the earthworks are exempt development under this Plan or another applicable environmental planning instrument, or

(b) the earthworks are ancillary to development that is permitted without consent under this Plan or to development for which development consent has been given.

(3) In deciding whether to grant development consent for earthworks (or for development involving ancillary earthworks), the consent authority must consider the following matters:

(a) the likely disruption of, or any detrimental effect on, drainage patterns and soil stability in the locality of the development,

(b) the effect of the development on the likely future use or redevelopment of the land,

(c) the quality of the fill or the soil to be excavated, or both,

(d) the effect of the development on the existing and likely amenity of adjoining properties,
(e) the source of any fill material and the destination of any excavated material,
(f) the likelihood of disturbing relics,
(g) the proximity to, and potential for adverse impacts on, any waterway, drinking water catchment or environmentally sensitive area,
(h) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development,
(i) the proximity to and potential for adverse impacts on any heritage item, archaeological site or heritage conservation area.

(4) In this clause:
*environmentally sensitive area* has the same meaning as environmentally sensitive area for exempt or complying development in clause 3.3.

**Note.** The *National Parks and Wildlife Act 1974*, particularly section 86, deals with harming Aboriginal objects.

### 7.3 Flood planning

(1) The objectives of this clause are as follows:

(a) to minimise the flood risk to life and property associated with the use of land,
(b) to allow development on land that is compatible with the land’s flood hazard, taking into account projected changes as a result of climate change,
(c) to avoid significant adverse impacts on flood behaviour and the environment.

(2) This clause applies to land at or below the flood planning level.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:

(a) is compatible with the flood hazard of the land, and
(b) will not significantly adversely affect flood behaviour resulting in detrimental increases in the potential flood affectation of other development or properties, and
(c) incorporates appropriate measures to manage risk to life from flood, and
(d) will not significantly adversely affect the environment or cause avoidable erosion, siltation, destruction of riparian vegetation or a reduction in the stability of river banks or watercourses, and
7.4 Floodplain risk management

(1) The objectives of this clause are as follows:
   (a) in relation to development with particular evacuation or emergency response issues—to enable evacuation of land subject to flooding in events exceeding the flood planning level,
   (b) to protect the operational capacity of emergency response facilities and critical infrastructure during extreme flood events.

(2) This clause applies to land between the flood planning level and the level of the probable maximum flood, but does not apply to land subject to the discharge of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metre freeboard, or other freeboard determined by an adopted floodplain risk management plan.

(3) Development consent must not be granted to development for the following purposes on land to which this clause applies unless the consent authority is satisfied that the development will not, in flood events exceeding the flood planning level, affect the safe occupation of, and evacuation from, the land:
   (a) caravan parks,
   (b) child care centres,
   (c) correctional centres,
   (d) educational establishments,
   (e) emergency services facilities,
   (f) group homes,
   (g) hospitals,
   (h) residential care facilities,

   (e) is not likely to result in unsustainable social and economic costs to the community as a consequence of flooding.

(4) A word or expression used in this clause has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0) published by the NSW Government in April 2005, unless it is otherwise defined in this clause.

(5) In this clause:

   *flood planning level* means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metres freeboard, or other freeboard determined by an adopted floodplain risk management plan.

   *floodplain risk management plan* has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0), published in April 2005 by the NSW Government.
(i) respite day care centres,
(j) seniors housing,
(k) tourist and visitor accommodation.

(4) In this clause:

- **flood planning level** means the level of a 1:100 ARI (average recurrent interval) flood event plus 0.5 metres freeboard, or other freeboard determined by an adopted floodplain risk management plan.
- **probable maximum flood** has the same meaning as it has in the *Floodplain Development Manual* (ISBN 0 7347 5476 0), published in 2005 by the NSW Government.

**Note.** The **probable maximum flood** is the largest flood that could conceivably occur at a particular location, usually estimated from probable maximum precipitation.

### 7.5 Coastal risk planning

(1) The objectives of this clause are as follows:

- (a) to avoid significant adverse impacts from coastal hazards,
- (b) to ensure uses of land identified as coastal risk are compatible with the risks presented by coastal hazards,
- (c) to enable the evacuation of land identified as coastal risk in an emergency,
- (d) to avoid development that increases the severity of coastal hazards.

(2) This clause applies to land identified on the Coastal Risk Planning Map as:

- (a) Wave Inundation, or
- (b) Coastal Erosion/Wave Inundation, or
- (c) Bluff/Cliff Instability.

(3) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that the development:

- (a) is not likely to cause detrimental increases in coastal risks to other development or properties, and
- (b) is not likely to alter coastal processes and the impacts of coastal hazards to the detriment of the environment, and
- (c) incorporates appropriate measures to manage risk to life from coastal risks, and
(d) is likely to avoid or minimise adverse effects from the impact of coastal processes and the exposure to coastal hazards, particularly if the development is located seaward of the immediate hazard line, and

(e) provides for the relocation, modification or removal of the development to adapt to the impact of coastal processes and coastal hazards, and

(f) has regard to the impacts of sea level rise, and

(g) will have an acceptable level of risk to both property and life, in relation to all identifiable coastline hazards.

(4) A word or expression used in this clause has the same meaning as it has in the NSW Coastal Planning Guideline: Adapting to Sea Level Rise (ISBN 978-1-74263-035-9) published by the NSW Government in August 2010, unless it is otherwise defined in this clause.

(5) In this clause: coastal hazard has the same meaning as in the Coastal Protection Act 1979.

7.6 Biodiversity

(1) The objective of this clause is to maintain terrestrial, riparian and aquatic biodiversity by:
   (a) protecting native fauna and flora, and
   (b) protecting the ecological processes necessary for their continued existence, and
   (c) encouraging the conservation and recovery of native fauna and flora and their habitats.

(2) This clause applies to land identified as “Biodiversity” on the Biodiversity Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider:
   (a) whether the development is likely to have:
      (i) any adverse impact on the condition, ecological value and significance of the fauna and flora on the land, and
      (ii) any adverse impact on the importance of the vegetation on the land to the habitat and survival of native fauna, and
      (iii) any potential to fragment, disturb or diminish the biodiversity structure, function and composition of the land, and
Clause 7.7  Pittwater Local Environmental Plan 2014
Part 7  Additional local provisions

(iv) any adverse impact on the habitat elements providing connectivity on the land, and

(b) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.

(4) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:

(a) the development is designed, sited and will be managed to avoid any significant adverse environmental impact, or

(b) if that impact cannot be reasonably avoided by adopting feasible alternatives—the development is designed, sited and will be managed to minimise that impact, or

(c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

7.7 Geotechnical hazards

(1) The objectives of this clause are to ensure that development on land susceptible to geotechnical hazards:

(a) matches the underlying geotechnical conditions of the land, and

(b) is restricted on unsuitable land, and

(c) does not endanger life or property.

(2) This clause applies to land identified as “Geotechnical Hazard H1” and “Geotechnical Hazard H2” on the Geotechnical Hazard Map.

(3) Before determining a development application for development on land to which this clause applies, the consent authority must consider the following matters to decide whether or not the development takes into account all geotechnical risks:

(a) site layout, including access,

(b) the development’s design and construction methods,

(c) the amount of cut and fill that will be required for the development,

(d) waste water management, stormwater and drainage across the land,

(e) the geotechnical constraints of the site,

(f) any appropriate measures proposed to avoid, minimise or mitigate the impacts of the development.
Development consent must not be granted to development on land to which this clause applies unless:

(a) the consent authority is satisfied that the development will appropriately manage waste water, stormwater and drainage across the land so as not to affect the rate, volume and quality of water leaving the land, and

(b) the consent authority is satisfied that:
   (i) the development is designed, sited and will be managed to avoid any geotechnical risk or significant adverse impact on the development and the land surrounding the development, or
   (ii) if that risk or impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that risk or impact, or
   (iii) if that risk or impact cannot be minimised—the development will be managed to mitigate that risk or impact.

7.8 Limited development on foreshore area

(1) The objectives of this clause are as follows:
   (a) to ensure that development in the foreshore area will not impact on natural foreshore processes or affect the significance and amenity of the area,
   (b) to ensure continuous public access along the foreshore area and to the waterway.

(2) Development consent must not be granted for development on land in the foreshore area except for the following purposes:
   (a) the extension, alteration or rebuilding of an existing building wholly or partly in the foreshore area, if the levels, depth or other exceptional features of the site make it appropriate to do so,
   (b) boat sheds, sea retaining walls, wharves, slipways, jetties, waterway access stairs, swimming pools, fences, cycleways, walking trails, picnic facilities or other recreation facilities (outdoors).

(3) Development consent must not be granted under this clause unless the consent authority is satisfied that:
   (a) the development will contribute to achieving the objectives for the zone in which the land is located, and
   (b) the appearance of any proposed structure, from both the waterway and adjacent foreshore areas, will be compatible with the surrounding area, and
(c) the development will not cause environmental harm such as:
   (i) pollution or siltation of the waterway, or
   (ii) an adverse effect on surrounding uses, marine habitat, wetland areas, fauna and flora habitats, or
   (iii) an adverse effect on drainage patterns, or
   (iv) the removal or disturbance of remnant riparian vegetation, and

(d) the development will not cause congestion or generate conflict between people using open space areas or the waterway, and

(e) opportunities to provide continuous public access along the foreshore and to the waterway will not be compromised, and

(f) any historic, scientific, cultural, social, archaeological, architectural, natural or aesthetic significance of the land on which the development is to be carried out and of surrounding land will be maintained, and

(g) in the case of development for the alteration or rebuilding of an existing building wholly or partly in the foreshore area, the alteration or rebuilding will not have an adverse impact on the amenity or aesthetic appearance of the foreshore, and

(h) sea level rise, coastal erosion and recession, or change of flooding patterns as a result of climate change, have been considered.

(4) In deciding whether to grant consent for development in the foreshore area, the consent authority must consider whether and to what extent the development would encourage the following:

(a) continuous public access to and along the foreshore through or adjacent to the proposed development,

(b) public access to link with existing or proposed open space,

(c) public access to be secured by appropriate covenants, agreements or other instruments registered on the title to land,

(d) public access to be located above mean high water mark,

(e) the reinforcing of the foreshore character and respect for existing environmental conditions.

(5) In this clause:

   **foreshore area** means the land between the foreshore building line and the mean high water mark of the nearest natural waterbody shown on the Foreshore Building Line Map.

   **foreshore building line** means the line shown as the foreshore building line on the Foreshore Building Line Map.
7.9 Residual lots

(1) The objective of this clause is to ensure undersized and constrained lots are not developed in isolation.

(2) This clause applies to land at:

(a) 159A McCarrs Creek Road, Church Point, being Lot 17, DP 243387, and
(b) 171A McCarrs Creek Road, Church Point, being Lot 1, DP 114169, and
(c) 183 McCarrs Creek Road, Church Point, being Lot 102, DP 839311.

(3) Development consent must not be granted for development on land to which this clause applies, unless:

(a) the lot is, or has been, consolidated with one or more adjoining lots to form a registered Torrens title lot, and
(b) the size of any lot resulting from such consolidation is not less than the minimum size shown on the Lot Size Map in relation to that land.

7.10 Essential services

Development consent must not be granted to development unless the consent authority is satisfied that any of the following services that are essential for the development are available or that adequate arrangements have been made to make them available when required:

(a) the supply of water,
(b) the supply of electricity,
(c) the disposal and management of sewage,
(d) stormwater drainage or on-site conservation,
(e) suitable vehicular access.

7.11 Converting serviced apartments to residential flat buildings

(1) The objective of this clause is to prevent substandard residential accommodation occurring through the conversion of serviced apartments to a residential flat building.

(2) Development consent must not be granted for the subdivision, under a strata scheme, of a building or part of a building that is being, or has ever been, used for serviced apartments into a residential flat building unless
the consent authority has considered the following in relation to the residential flat building:

(a) the design quality principles set out in Part 2 of State Environmental Planning Policy No 65—Design Quality of Residential Flat Development,

(b) the design principles of the Residential Flat Design Code (published by the Department of Planning, Infrastructure and natural Resources, September 2002).

7.12 Location of sex services premises

(1) The objective of this clause is to minimise land use conflicts and adverse amenity impacts by providing a reasonable level of separation between sex services premises, specified land uses and places regularly frequented by children.

(2) In deciding whether to grant development consent to development for the purposes of sex services premises, the consent authority must consider the following:

(a) whether the premises will be located on land that adjoins, is directly opposite or is separated only by a local road from land:
   (i) in Zone R1 General Residential, Zone R2 Low Density Residential, Zone R3 Medium Density Residential or Zone RE1 Public Recreation, or
   (ii) used for the purposes of a child care centre, a community facility, a school or a place of public worship,

(b) the impact of the development and its hours of operation on any place likely to be regularly frequented by children:
   (i) that adjoins the development, or
   (ii) that can be viewed from the development, or
   (iii) from which a person can view the development.
Schedule 1 Additional permitted uses

(Clauses 2.5)

1 Use of certain land at 94 George Street, Avalon Beach
   (1) This clause applies to land:
       (a) at 94 George Street, Avalon Beach, being Lot 254, DP 752046 and identified as “Area 1” on the Additional Permitted Uses Map, and
       (b) that is subject to PO 1963/97.
   (2) Development for the purposes of boat building and repair facilities is permitted with development consent.

2 Use of certain land at 1714 Pittwater Road, Bayview
   (1) This clause applies to land at 1714 Pittwater Road, Bayview, being Lot 6A and 8A, DP 11186, Part Lot 1, DP 173780 and Part Lot 1, DP 1142750 and identified as “Area 2” on the Additional Permitted Uses Map.
   (2) Development of the land for the purposes of office premises, restaurants or cafes or shops is permitted with development consent.

3 Use of certain land at 82 Hudson Parade, Clareville
   (1) This clause applies to land:
       (a) at 82 Hudson Parade, Clareville, being Lot 67, DP 7794 and identified as “Area 3” on the Additional Permitted Uses Map, and
       (b) that is subject to PO 1966/156.
   (2) Development for the purpose of boat building and repair facilities is permitted with development consent.

4 Use of certain land at 49A Wesley Street, Elanora Heights
   (1) This clause applies to land at 49A Wesley Street, Elanora Heights, being Lot 3, DP 1163689 and identified as “Area 4” on the Additional Permitted Uses Map.
   (2) Development for the following purposes is permitted with development consent:
       (a) recreation areas, but only if the consent authority is satisfied that:
           (i) the activities proposed will only have a minimal environmental impact, and
           (ii) the activities proposed are ancillary to and associated with the adjacent Elanora Conference Centre,
(b) places of public worship, but only if the consent authority is satisfied that:

(i) the use is completely outdoors and does not involve the construction of a building, and
(ii) the activities proposed will only have a minimal environmental impact, and
(iii) the activities proposed are ancillary to and associated with the adjacent Elanora Conference Centre.

5 Use of certain land at 14 Wirringulla Avenue, Elvina Bay

(1) This clause applies to land:

(a) at 14 Wirringulla Avenue, Elvina Bay, being Lot 1, DP 1023404 and identified as “Area 5” on the Additional Permitted Uses Map, and

(b) that is subject to PO 1963/227.

(2) Development for the purposes of boat building and repair facilities is permitted with development consent.

6 Use of certain land at 30 Ingleside Road, Ingleside

(1) This clause applies to land at 30 Ingleside Road, Ingleside, being Lot B, DP 366659 and identified as “Area 6” on the Additional Permitted Uses Map.

(2) Development for the purposes of eco-tourist facilities is permitted with development consent.

7 Use of certain land at 6 Portions, Lovett Bay

(1) This clause applies to land:

(a) at 6 Portions, Lovett Bay, being Lot 6, DP 545717 and identified as “Area 7” on the Additional Permitted Uses Map, and

(b) that is subject to PO 1964/165.

(2) Development for the purposes of boat building and repair facilities is permitted with development consent.

8 Use of certain land at 24 and 38 Barrenjoey Road, Mona Vale and 1509 Pittwater Road, North Narrabeen

(1) This clause applies to the following land identified as “Area 13” on the Additional Permitted Uses Map:

(a) 24 Barrenjoey Road, Mona Vale, being Lot 11, DP 619503,

(b) 38 Barrenjoey Road, Mona Vale, being Lot 7, DP 29305,
(c) 1509 Pittwater Road, North Narrabeen, being Lot 567, DP 813147.

(2) Development the for purpose of a service station is permitted with development consent on each lot.

9 Use of certain land at 9 The Esplanade, Mona Vale

(1) This clause applies to land at 9 The Esplanade, Mona Vale, being Lot 10, DP 730056 and identified as “Area 8” on the Additional Permitted Uses Map.

(2) Development for the purpose of a marina is permitted with development consent.

10 Use of certain land at 2 Mona Street, Mona Vale

(1) This clause applies to land at 2 Mona Street, Mona Vale, and identified as “Area 10” on the Additional Permitted Uses Map.

(2) Development for purposes of community facilities, depots and emergency services facilities is permitted with development consent.

11 Use of certain land at 80–82 and 84 Mona Vale Road, Mona Vale and 22 Jubilee Avenue, Warriewood

(1) This clause applies to the following land identified as “Area 9” on the Additional Permitted Uses Map:

(a) 80–82 Mona Vale Road, Mona Vale, being Lot 26, DP 654262,

(b) 84 Mona Vale Road, Mona Vale, being Lot 120, DP 135512,

(c) 22 Jubilee Avenue, Warriewood, being Lot 27, DP 5055.

(2) Development for the purpose of a registered club is permitted with development consent.

12 Use of certain land at Kitchener Park, Pittwater Road, Mona Vale

(1) This clause applies to land at Kitchener Park, Pittwater Road, Mona Vale, identified as “Area 12” on the Additional Permitted Uses Map.

(2) Development for purposes of shops is permitted with development consent if the shops are associated with a skate park facility and if the total gross floor area of all shops does not exceed 200 square metres.

13 Use of certain land zoned IN2 Light Industrial in Mona Vale

(1) This clause applies to land identified as “Area 11” on the Additional Permitted Uses Map.

(2) Development for purpose of a shop, being specifically for the sale, hire or storage of goods associated with the use of, or used in the
construction, repair and maintenance of watercraft, used or capable of being used as a means of transportation on water is permitted with development consent.

14 **Use of certain land at 122 and 124 Crescent Road, Newport**

(1) This clause applies to land at 122 and 124 Crescent Road, Newport, being Lots 111 and 112, DP 556902 and identified as “Area 15” on the Additional Permitted Uses Map.

(2) Development for the purposes of a boat building and repair facility, a charter and tourism boating facility and a marina is permitted with development consent.

15 **Use of certain land at 4 and 6 Crystal Street, and 7 Mitala Street, Newport**

(1) This clause applies to the following land identified as “Area 16” on the Additional Permitted Uses Map:

(a) 4 and 6 Crystal Street, Newport, being Lot 331, DP 532276, Lots 1 and 2, DP 1004425 and Lot B, DP 401973,

(b) 7 Mitala Street, Newport, being Lot 332, DP 532276.

(2) Development for the purpose of a marina is permitted with development consent.

16 **Use of certain land in Zone B2 Local Centre in Newport**

(1) This clause applies to land in Newport, identified as “Area 14” on the Additional Permitted Uses Map.

2014 No 320
Pittwater Local Environmental Plan 2014
Schedule 1  Additional permitted uses

22  Use of certain land in Zone RE1 Public Recreation

(1)  This clause applies to land identified as “Area 22” on the Additional Permitted Uses Map.

(2)  Development for the purposes of registered clubs is permitted with development consent.

23  Use of certain land in Zone W1 Natural Waterways

(1)  This clause applies to land identified as “Area 23” on the Additional Permitted Uses Map.

(2)  Development for the purposes of boat sheds, jetties or water recreation structures is permitted with development consent.
Schedule 2 Exempt development

(Clause 3.1)

Note 1. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies exempt development under that Policy. The Policy has State-wide application. This Schedule contains additional exempt development not specified in that Policy.

Note 2. Exempt development may be carried out without the need for development consent under the Act. Such development is not exempt from any approval, licence, permit or authority that is required under any other Act and adjoining owners’ property rights and the common law still apply.

Minor alterations to existing lawful jetties, water recreation structures and wharf or boating facilities

(1) The following works to existing lawful jetties, water recreation structures and wharf or boating facilities, if the works are not carried out on or in a heritage item or a draft heritage item, and if the works comply with the standards specified in this clause:

(a) the repair or replacement of the following:
   (i) decking on a boardwalk, gangway, ramp, jetty, landing or landing steps, pontoon, stairs, steps, skids or wharf,
   (ii) a handrail or ladder,
   (iii) the rails of a slipway,
   (iv) a winch,
   (v) non-load bearing members,

(b) the installation of emergency items such as lifebuoys and any associated signage,

(c) painting or other similarly applied surface treatment that is intended to protect a structure from corrosion or weathering,

(d) demolition of a structure.

(2) The standards specified for that development are that the development:

(a) in the case of development for the repair or replacement of non-load bearing members:
   (i) must use members of like dimension to the members being repaired or replaced, and
   (ii) must not modify the footprint for the structure concerned, and
   (iii) must use materials that are equivalent to or better than the quality of the materials being repaired or replaced, and

(b) in the case of demolition, must be carried out in accordance with AS 2601—2001, The demolition of structures, and
Schedule 2  Exempt development

(c) must not reduce the amount of light penetration to any water below, and
(d) must not increase the footprint of any building or structure or change its classification under the Building Code of Australia, and
(e) must not involve disturbance of or injury to any waterway or any sea grass, and
(f) must not include a change to the fire resisting components of, or interfere with the entry to or exit from, or the fire safety measures contained within, any building, and
(g) must be consistent with the terms of any applicable development consent.

Note. Despite the above development being exempt development, any requirement for an approval, licence, permit or authority under the Fisheries Management Act 1994 or the Protection of the Environment Operations Act 1997 in relation to the above development is still required.

Moorings

Maintenance of legally approved moorings.

Outdoor areas of community land used for commercial purposes

Must be authorised under Division 2 of Part 2 of Chapter 6 of the Local Government Act 1993.

Short-term holiday rental accommodation

Must be used for a period of less than 3 months by any individual or group.
Schedule 3  Complying development

(Claude 3.2)

Note. State Environmental Planning Policy (Exempt and Complying Development Codes) 2008 specifies complying development and the complying development conditions for that development under that Policy. The Policy has State-wide application. This Schedule contains additional complying development not specified in that Policy.

Part 1  Types of development
(When this Plan was made this Part was blank)

Part 2  Complying development certificate conditions

Note. Complying development must comply with the requirements of the Act, the regulations under the Act and this Plan.

General conditions

Any development specified in Part 1 is subject to the same conditions set out in Division 3 of Part 3 of State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.

Aboriginal object means any deposit, object or other material evidence (not being a handicraft made for sale) relating to the Aboriginal habitation of an area of New South Wales, being habitation before or concurrent with (or both) the occupation of that area by persons of non-Aboriginal extraction, and includes Aboriginal remains.

Aboriginal place of heritage significance means an area of land, the general location of which is identified in an Aboriginal heritage study adopted by the Council after public exhibition and that may be shown on the Heritage Map, that is:

(a) the site of one or more Aboriginal objects or a place that has the physical remains of pre-European occupation by, or is of contemporary significance to, the Aboriginal people. It may (but need not) include items and remnants of the occupation of the land by Aboriginal people, such as burial places, engraving sites, rock art, midden deposits, scarred and sacred trees and sharpening grooves, or

(b) a natural Aboriginal sacred site or other sacred feature. It includes natural features such as creeks or mountains of long-standing cultural significance, as well as initiation, ceremonial or story places or areas of more contemporary cultural significance.

Note. The term may include (but is not limited to) places that are declared under section 84 of the National Parks and Wildlife Act 1974 to be Aboriginal places for the purposes of that Act.

acid sulfate soils means naturally occurring sediments and soils containing iron sulfides (principally pyrite) or their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation).

Acid Sulfate Soils Manual means the manual by that name published by the Acid Sulfate Soils Management Advisory Committee and made publicly available.

Acid Sulfate Soils Map means the Pittwater Local Environmental Plan 2014 Acid Sulfate Soils Map.

Additional Permitted Uses Map means the Pittwater Local Environmental Plan 2014 Additional Permitted Uses Map.

advertisement has the same meaning as in the Act.

Note. The term is defined as a sign, notice, device or representation in the nature of an advertisement visible from any public place or public reserve or from any navigable water.

Note. Aquaculture is a type of agriculture—see the definition of that term in this Dictionary.

archaeological site means a place that contains one or more relics.

attached dwelling means a building containing 3 or more dwellings, where:
(a) each dwelling is attached to another dwelling by a common wall, and
(b) each of the dwellings is on its own lot of land, and
(c) none of the dwellings is located above any part of another dwelling.

**Note.** Attached dwellings are a type of residential accommodation—see the definition of that term in this Dictionary.

*attic* means any habitable space, but not a separate dwelling, contained wholly within a roof above the ceiling line of the storey immediately below, except for minor elements such as dormer windows and the like.

*backpackers’ accommodation* means a building or place that:

(a) provides temporary or short-term accommodation on a commercial basis, and

(b) has shared facilities, such as a communal bathroom, kitchen or laundry, and

(c) provides accommodation on a bed or dormitory-style basis (rather than by room).

**Note.** Backpackers’ accommodation is a type of tourist and visitor accommodation—see the definition of that term in this Dictionary.

*basement* means the space of a building where the floor level of that space is predominantly below ground level (existing) and where the floor level of the storey immediately above is less than 1 metre above ground level (existing).

*bed and breakfast accommodation* means an existing dwelling in which temporary or short-term accommodation is provided on a commercial basis by the permanent residents of the dwelling and where:

(a) meals are provided for guests only, and

(b) cooking facilities for the preparation of meals are not provided within guests’ rooms, and

(c) dormitory-style accommodation is not provided.

**Note.** See clause 5.4 for controls relating to the number of bedrooms for bed and breakfast accommodation.

Bed and breakfast accommodation is a type of tourist and visitor accommodation—see the definition of that term in this Dictionary.

*bee keeping* means a building or place used for the keeping and breeding of bees for commercial purposes.

**Note.** Bee keeping is a type of extensive agriculture—see the definition of that term in this Dictionary.

*biodiversity* means biological diversity.

*Biodiversity Map* means the Pittwater Local Environmental Plan 2014 Biodiversity Map.

*biological diversity* has the same meaning as in the Threatened Species Conservation Act 1995.

**Note.** The term is defined as follows:

*biological diversity* means the diversity of life and is made up of the following 3 components:

(a) genetic diversity—the variety of genes (or units of heredity) in any population,

(b) species diversity—the variety of species,

(c) ecosystem diversity—the variety of communities or ecosystems.
biosolids treatment facility means a building or place used as a facility for the treatment of biosolids from a sewage treatment plant or from a water recycling facility.

Note. Biosolids treatment facilities are a type of sewerage system—see the definition of that term in this Dictionary.

boarding house means a building that:
(a) is wholly or partly let in lodgings, and
(b) provides lodgers with a principal place of residence for 3 months or more, and
(c) may have shared facilities, such as a communal living room, bathroom, kitchen or laundry, and
(d) has rooms, some or all of which may have private kitchen and bathroom facilities, that accommodate one or more lodgers, but does not include backpackers’ accommodation, a group home, hotel or motel accommodation, seniors housing or a serviced apartment.

Note. Boarding houses are a type of residential accommodation—see the definition of that term in this Dictionary.

boat building and repair facility means any facility (including a building or other structure) used primarily for the construction, maintenance or repair of boats, whether or not including the storage, sale or hire of boats, but does not include a marina or boat shed.

boat launching ramp means a structure designed primarily for the launching of trailer borne recreational vessels, and includes associated car parking facilities.

boat shed means a building or other structure used for the storage and routine maintenance of a boat or boats and that is associated with a private dwelling or non-profit organisation, and includes any skid used in connection with the building or other structure.

brothel has the same meaning as in the Act.

Note. This definition is relevant to the definitions of home occupation (sex services) and sex services premises in this Dictionary.

building has the same meaning as in the Act.

Note. The term is defined to include part of a building and any structure or part of a structure, but not including a manufactured home, a moveable dwelling or associated structure (or part of a manufactured home, moveable dwelling or associated structure).

building height (or height of building) means the vertical distance between ground level (existing) and the highest point of the building, including plant and lift overruns, but excluding communication devices, antennae, satellite dishes, masts, flagpoles, chimneys, flues and the like.

building identification sign means a sign that identifies or names a building and that may include the name of a building, the street name and number of a building, and a logo or other symbol but does not include general advertising of products, goods or services.

Note. Building identification signs are a type of signage—see the definition of that term in this Dictionary.
building line or setback means the horizontal distance between the property boundary or other stated boundary (measured at 90 degrees from the boundary) and:
(a) a building wall, or
(b) the outside face of any balcony, deck or the like, or
(c) the supporting posts of a carport or verandah roof,
whichever distance is the shortest.

bulky goods premises means a building or place the principal purpose of which is the sale, hire or display of bulky goods, being goods that are of such size or weight as to require:
(a) a large area for handling, display or storage, and
(b) direct vehicular access to the site of the building or place by members of the public for the purpose of loading or unloading such goods into or from their vehicles after purchase or hire,
and including goods such as floor and window supplies, furniture, household electrical goods, equestrian supplies and swimming pools, but does not include a building or place used for the sale of foodstuffs or clothing unless their sale is ancillary to the sale or hire or display of bulky goods.

Note. Bulky goods premises are a type of retail premises—see the definition of that term in this Dictionary.

bush fire hazard reduction work has the same meaning as in the Rural Fires Act 1997.

Note. The term is defined as follows:
bush fire hazard reduction work means:
(a) the establishment or maintenance of fire breaks on land, and
(b) the controlled application of appropriate fire regimes or other means for the reduction or modification of available fuels within a predetermined area to mitigate against the spread of a bush fire,
but does not include construction of a track, trail or road.

bush fire prone land has the same meaning as in the Act.

Note. The term is defined, in relation to an area, as land recorded for the time being as bush fire prone land on a map for the area certified as referred to in section 146 (2) of the Act.

bush fire risk management plan means a plan prepared under Division 4 of Part 3 of the Rural Fires Act 1997 for the purpose referred to in section 54 of that Act.

business identification sign means a sign:
(a) that indicates:
   (i) the name of the person or business, and
   (ii) the nature of the business carried on by the person at the premises or place at which the sign is displayed, and
(b) that may include the address of the premises or place and a logo or other symbol that identifies the business,
but that does not contain any advertising relating to a person who does not carry on business at the premises or place.

Note. Business identification signs are a type of signage—see the definition of that term in this Dictionary.

**business premises** means a building or place at or on which:

(a) an occupation, profession or trade (other than an industry) is carried on for the provision of services directly to members of the public on a regular basis, or

(b) a service is provided directly to members of the public on a regular basis, and includes a funeral home and, without limitation, premises such as banks, post offices, hairdressers, dry cleaners, travel agencies, internet access facilities, betting agencies and the like, but does not include an entertainment facility, home business, home occupation, home occupation (sex services), medical centre, restricted premises, sex services premises or veterinary hospital.

Note. Business premises are a type of commercial premises—see the definition of that term in this Dictionary.

**camping ground** means an area of land that has access to communal amenities and on which campervans or tents, annexes or other similar portable and lightweight temporary shelters are, or are to be, installed, erected or placed for short term use, but does not include a caravan park.

**canal estate development** means development that incorporates wholly or in part a constructed canal, or other waterway or waterbody, that is inundated by or drains to a natural waterway or natural waterbody by surface water or groundwater movement (not being works of drainage, or for the supply or treatment of water, that are constructed by or with the authority of a person or body responsible for those functions and that are limited to the minimal reasonable size and capacity to meet a demonstrated need for the works), and that either:

(a) includes the construction of dwellings (which may include tourist and visitor accommodation) of a kind other than, or in addition to:

   (i) dwellings that are permitted on rural land, and

   (ii) dwellings that are used for caretaker or staff purposes, or

(b) requires the use of a sufficient depth of fill material to raise the level of all or part of that land on which the dwellings are (or are proposed to be) located in order to comply with requirements relating to residential development on flood prone land.

**car park** means a building or place primarily used for the purpose of parking motor vehicles, including any manoeuvring space and access thereto, whether operated for gain or not.

**caravan park** means land (including a camping ground) on which caravans (or caravans and other moveable dwellings) are, or are to be, installed or placed.
**catchment action plan** has the same meaning as in the *Catchment Management Authorities Act 2003.*

*Note.* The term is defined as a catchment action plan of an authority that has been approved by the Minister under Part 4 of the *Catchment Management Authorities Act 2003.*

**cellar door premises** means a building or place that is used to sell wine by retail and that is situated on land on which there is a commercial vineyard, and where most of the wine offered for sale is produced in a winery situated on that land or is produced predominantly from grapes grown in the surrounding area.

*Note.* Cellar door premises are a type of **retail premises**—see the definition of that term in this Dictionary.

**cemetery** means a building or place used primarily for the interment of deceased persons or pets or their ashes, whether or not it contains an associated building for conducting memorial services.

**charter and tourism boating facility** means any facility (including a building or other structure) used for charter boating or tourism boating purposes, being a facility that is used only by the operators of the facility and that has a direct structural connection between the foreshore and the waterway, but does not include a marina.

**child care centre** means a building or place used for the supervision and care of children that:

(a) provides long day care, pre-school care, occasional child care or out-of-school-hours care, and

(b) does not provide overnight accommodation for children other than those related to the owner or operator of the centre,

but does not include:

(c) a building or place used for home-based child care, or

(d) an out-of-home care service provided by an agency or organisation accredited by the Children’s Guardian, or

(e) a baby-sitting, playgroup or child-minding service that is organised informally by the parents of the children concerned, or

(f) a service provided for fewer than 5 children (disregarding any children who are related to the person providing the service) at the premises at which at least one of the children resides, being a service that is not advertised, or

(g) a regular child-minding service that is provided in connection with a recreational or commercial facility (such as a gymnasium), by or on behalf of the person conducting the facility, to care for children while the children’s parents are using the facility, or

(h) a service that is concerned primarily with the provision of:

(i) lessons or coaching in, or providing for participation in, a cultural, recreational, religious or sporting activity, or

(ii) private tutoring, or

(i) a school, or
(j) a service provided at exempt premises (within the meaning of Chapter 12 of the Children and Young Persons (Care and Protection) Act 1998), such as hospitals, but only if the service is established, registered or licensed as part of the institution operating on those premises.
